BOTTARISPA

INIZIA COSÌ UNA GRANDE PASSIONE

Company Bottari was founded at the beginning of the 60's as an individual company by Carlo the father and Mrs. De Micheli

The company started its activity of car seat covers and seat cushion craft manufacturing from its 1st head office of 100mq.

So, a great **passion for cars** world started and led Mr. Bottari to invest in that developing sector, at that moment. In the 80's, this passion also involved the sons Paolo and Guido who started the enlargement of the company's activity beyond the national border as well, both for import & export.

Thanks to their commitment, company Bottari started its great rise which led it to become "Bottari spa" in 1996.

In 1996, the company decided to start the attack to the foreign market through a strategic action that consisted in sharing with a Polish company in Warsaw, which was leader in the distribution of our products all over eastern Europe countries. So, company Bottari Polska was born, with its head office in Warsaw.

In 1998, the family decided to plan a unique logistic centre in the forefront (up to 1998 the company had 8 scattered factories). In 1999 the company counted 150.000 mq. of land extension and it gave start to the logistic centre, covering up to 10.000 mq with its warehouses. Meanwhile the company continued its enlargement and after just 2 years, it started the construction of a new 10.000 mq factory, in order to get a 20.000 mq logistic centre.

Then, in 2002 family Bottari founded another company, EuroBottari SL in Spain, with head office in Barbera del Valles (Barcelona), in order to attack both the Spanish and Portuguese market and all neighbouring countries.

At last, in 2003 company Bottari Cz was born with its head office in Benesov Nad Ploucnici, in order to begin the development of a wide-spread market in this country and to acquire new market shares.

The company has remarkably evolved in the last decades, thanks to the constant commitment of all family Bottari and all of its highly skilled staff. The goal of the company is to offer an accurate product of quality and packaging, but also with an excellent quality-price ratio, and easy to sell.

Thousands of sale points in Italy and all over the world show our products and the demand is increasing.

The company is studying other foreign situations in order to increase Bottari's market shares in the European and worldwide market.

MISSION: To go on and investing in the search of new products in order to increase and consolidate consumers' trust towards our brand and let the brand Bottari become more popular and well-known.

La società Bottari nasce nei primi anni Sessanta come ditta individuale, fondata dal padre Carlo e dalla Sig.ra De Micheli.

L'azienda inizia la sua attività con una prima sede di 100 mq, con la produzione artigianale di fodere e schienali per auto. Inizia così una **grande passione per il mondo dell'auto** che porterà il Sig. Bottari ad investire in un mondo così in evoluzione in quegli anni. Questa passione negli anni 80 coinvolgerà i figli Paolo e Guido che iniziano ad allargare l'attività della Società anche al di fuori dei confini nazionali sia in import che in export. E' grazie al loro impegno che la Bottari inizia la sua grande ascesa che la porterà nel 1996 a diventare Bottari spa.

Nel 1996 l'azienda decide di iniziare ad aggredire il mercato estero con una mossa strategica che consiste nell'entrare in partecipazione con un'azienda polacca con sede a Varsavia, leader nella distribuzione dei nostri prodotti in tutti i paesi dell'Est. È così che nasce la Bottari Polska con sede a Varsavia.

Nel 1998 la famiglia decide di programmare in Italia un solo polo logistico all'avanguardia (fino al 1998 aveva 8 stabilimenti sparsi). Così nel 1999 individua un terreno di 150.000 mq. e dà il via al polo logistico coprendo 10.000 mq di capannoni.

Nel frattempo l'azienda continua ad ingrandirsi sempre di più e dopo solo 2 anni inizia la costruzione di un nuovo stabilimento di 10.000 mq, per arrivare ad avere un polo logistico di 20.000 mq.

Poi nel 2002 la famiglia Bottari fonda un'altra azienda in Spagna con sede a Barbera del Valles (Barcellona) la EuroBottari SL, per aggredire il mercato spagnolo, portoghese e tutti i paesi limitrofi.

Infine nel 2003, nasce la Bottari Cz, con sede a Benesov Nad Ploucnici per cominciare a sviluppare anche un mercato capillare in questa nazione e per acquisire nuove quote di mercato.

L'azienda si è notevolmente evoluta negli ultimi decenni, grazie all'impegno costante di tutta la famiglia Bottari e di tutto il personale aziendale altamente qualificato. Obiettivo dell'azienda è offrire un prodotto curato nella qualità e nella confezione, con un ottimo rapporto qualità-prezzo e facile da vendere.

Migliaia di punti vendita in Italia ed in tutto il mondo espongono i nostri prodotti e la domanda è in continuo aumento. Abbiamo altre situazioni estere che sono allo studio per far sì di aumentare notevolmente le quote di mercato della Bottari spa nel mercato europeo e mondiale.

MISSION: Continuare ad investire nella ricerca di nuovi prodotti per aumentare e sempre più consolidare la fiducia dei consumatori verso il nostro BRAND e far sì che il BRAND BOTTARI diventi familiare e riconosciuto in tutto il mondo.

Migliaia di punti vendita in tutto il mondo espongono i nostri prodotti

Un'attività in continuo fermento genera sempre soluzioni innovative

An activity in continuous growth always creates innovative solutions

Thousands of stores around the world show our products, the demand is constantly growing up.

Careful marketing strategies help our customers to promote our products.

We have segmented the sector, diversifying striking visual impact lines which satisfy even the most demanding end user.

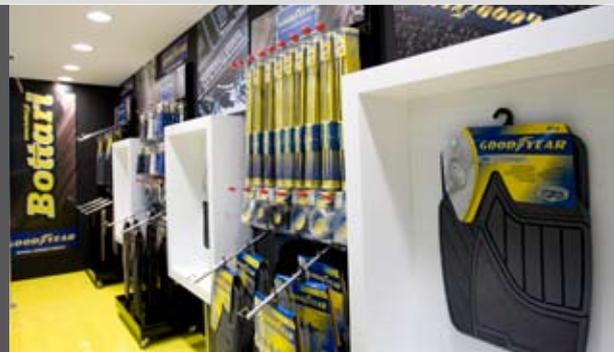

The absolute quality of our products report enthusiastic feedbacks from the market.

Quick and efficient deliveries assure a prompt service for the customer.

Thousands of stores around the world show our products

Migliaia di punti vendita in tutto il mondo espongono i nostri prodotti, una domanda che è in continuo aumento.

Accurate strategie di marketing supportano i nostri clienti nella promozione dei prodotti. Abbiamo segmentato il settore, diversificando linee di forte impatto visivo e attente a soddisfare anche i gusti più esigenti. L'indiscussa qualità dei prodotti ci fa raccogliere riscontri entusiastici sul mercato. Consegne dinamiche ed efficienti assicurano un servizio puntuale al cliente.

Viene utilizzato per domare gli incendi sulle auto, sulle barche, negli uffici, nelle case, ecc. Non è tossico, non è dannoso per l'ambiente e neanche macchiante. Può essere utilizzato per estinguere l'attrezzatura elettrica con voltaggio fino a 1000V dalla distanza di 1 metro. Agente estintivo: AR-AFFF, sostanza propellente: -N2

Ideal for extinguishing cars, boats, offices, houses, etc. Nontoxic, environment-friendly, stain-resistant. Can be used to extinguish fires, including electric equipment up to 1000V in distance 1 m.

Extinguishing agent type: AR-AFFF, propellant: -N2.

Quante volte guidiamo alla cieca pensando "devo cambiare le spazzole dei tergicristalli", che invece sono solo incrostate da chilometri di moscerini e polvere!

Ora c'è un modo per mantenerle pulite ed efficienti! E' Clean Up che le pulisce perfettamente risolvendo il tuo problema. Anche il tergicristallo nuovo quando è sporco pulisce male e, specialmente quando piove, non hai visibilità e sicurezza.

Con Clean Up basta una passata veloce e le spazzole dei tergicristalli ritornano come nuove: pulisce perfettamente la gomma che rimane nuova e dura tre volte tanto! Con Clean Up risparmi denaro e guidi sicuro avendo una visione nitida in ogni situazione! Inoltre, Clean Up ha uno spillo a scomparsa per pulire l'ugello degli spruzzatori e regolare la loro posizione.

Sono dettagli, ma non è questione di panorama: c'è in gioco la tua sicurezza!

E allora, per una guida più sicura, tieni Clean Up nel vano portaoggetti!

If you can't see clearly because the wipers leave lines and don't clean the screen, YOU DON'T HAVE TO CHANGE THE WIPERS!! Clean Up will clean them perfectly, the solution to your problem. Even new windscreen-wipers, when they are dirty, don't clean well. How often do you drive blindly thinking "I must change the wipers blades" when on the contrary it's just grime from miles of midges, dust and the rest! And if the wipers aren't in good condition, especially when it's raining, you can't see and it's dangerous! If only there was a way of keeping the wipers clean and in good condition! There is! It's Clean Up! With just one quick wipe-over with Clean Up the wipers are as good as new again: they clean perfectly, the rubbers stay new, in good condition and last three times as long!

With Clean Up you save money and ensure your safety: clear visibility at all times is essential for safe driving! And when you use the windscreen washers and the water doesn't come out because the jet nozzles are clogged up or out of place?

Clean Up has a sliding pin to use only when you need to! These are minor details, but do you want to see the difference when you are driving between seeing and not being able to see? It's not just a matter of enjoying the view: it's your safety at stake! And so now, for safer driving, keep Clean Up in the glove compartment! Clean Up never wears out!
