## ***Our Ideas, Your Success.***

You profit from our innovation: This brochure presents the new products, ranges and services from Hella and Behr Hella Service. Our objective is to open up further opportunities for you to be successful in a demanding market.

We are continually expanding our performance spectrum on the basis of impressively strong ranges and services. In the areas of lighting, electrics, electronics and thermal management – with both wearing parts and accessories. High product availability and excellent quality go without saying. In addition, we provide support through a wide range of services that make selling more straightforward and economical for you. For example with sales support instruments and with the aid of our acknowledged first-class technical service.

We are your reliable partner who will guarantee supplies to the independent aftermarket and garages in future, too. Thanks to synergies from our international developments for original equipment for the automotive industry as well as for the manufacturers of small batches – but mainly thanks to our consistent orientation towards our customers.

Our ideas, your success. With a wealth of new products we have widened the road to success for you yet again this year.

Your Hella Aftermarket Team

**Introduction**  
4-7 Ranges and services

**Lighting**

8 Lighting products overview  
9 Headlights for cars  
10 Headlights for light trucks  
10-11 Headlights for trucks  
11 Headlights for buses  
11 Fog/spotlights for trucks  
12 Indicator lights for trucks  
12-13 Auxiliary lights  
13-14 Upgrade headlight sets  
15 Signal lights rear  
15 Indicators  
15 Safety stoplights  
15-16 Reverse lights  
16 Hand lamps  
16-17 Interior lights  
17-18 Worklights  
18-19 Optical warning systems  
19-20 Rotating beacon/siren combinations  
20-23 EasyConn/Quick-Link  
23 Daytime Running Light

**Electrics**

24 Electrics products overview  
25 Rear view camera systems  
25 Tyre pressure control system  
25-26 Starters  
27-30 Alternators  
31 Flasher units  
31 Control units, glow plug system  
32 Relay, fuel pump  
32-37 Ignition coils  
37 Switch, oil pressure  
37-38 Switches, stoplight

38 Switch, brake pedal actuation  
38 Switches, clutch control  
38-42 Alternator regulators  
42-43 Bulbs  
43 Pipe clips  
44 Cigarette lighters  
44 Power sockets  
44 Blade-type fuses

**Electronics**

45 Electronics products overview  
46-48 Sensors, crankshaft  
49-53 Sensors, camshaft position  
53 Sensors, coolant temperature

**Thermal Management**

54 Thermal management products overview  
55-56 Condensers  
56 Fans, engine cooling  
56-59 Heat exchangers, interior heating  
60-66 Compressors  
66-67 Refrigerant hoses  
67-83 Radiators, engine cooling  
84-86 Intercoolers  
86-87 Oil coolers, engine oil  
87 Air conditioning service units  
87 Flushing devices  
87 Adapter set, air conditioning service unit  
88 Refrigerant analyser  
88 Compressor filter screens  
88 Lokring service cases

## Lighting

### You profit from our innovation.

In the field of lighting technology, we are one of the one of the innovative leaders in the original equipment sector, thanks to our own research, development and production facilities. This market position guarantees you an attractive range of lighting equipment in the aftermarket range for the long-term future, too.

Benefit from our wide range of products such as headlights for passenger cars and commercial vehicles, signal lights, reflectors, beacons, worklights and our first-class range of accessories.

Innovations such as bend lighting, cornering light, rear view camera and daytime running light as well as numerous products using LED technology prove that we turn new ideas into attractive products again and again. And these are top sellers: Both as series products – including subsequent wearing parts business – and as accessories.

## Electrics

### You profit from our innovation.

We have widely expanded our electrics range from A to Z. For the optimum supply of spare parts, we offer you a single source for different products. Naturally, with high market coverage for a wide range of different vehicle types and applications.

We have extended our range for you yet again this year, in line with our policy of continual and innovative range build-up and expansion.

## Electronics

### You profit from our innovation.

Never before has a technology inside the vehicle changed the market so dramatically as electronics have done. Because experts estimate that the value share of electronics material in a passenger car will have increased to more than 30% by the year 2010. And already, 60% of vehicle breakdowns are due to "electrics/electronics" faults.

This is both a challenge and an opportunity for you at the same time. Because on the one hand you can benefit from strong sales

growth, but on the other hand, garages have to be able to master ever more complex technology in order to carry out repairs.

It's a good thing you have Hella as your partner – a partner who not only supplies a comprehensive range of electronics products but also offers support in the form of a qualified technical information system and numerous training courses.

## Thermal Management from Behr Hella Service

### You profit from our innovation.

With more than 6,000 top-quality items, Behr Hella Service has an incredible market coverage! You benefit from the know-how of both Behr and Hella as well as from the high service competence for parts supplies and the provision of technical information and training – both for the independent aftermarket and garages. In addition to a wide range of parts for engine cooling, Hella Behr Service also supplies you with numerous products for vehicle air conditioning.

This means the product ranges and competences complement each other just perfectly for you: Hella's worldwide sales organization plus Behr's OE product know-how.

## Sales Support

### You profit from our innovation.

Top-quality products are important for your business success – but so is everything else that helps your business processes to run smoothly, simply and economically. And we are your reliable partner here, too.

#### ■ High product availability:

With an availability of 95% we have 22,600 items always in stock. On the day the order is placed, we can deliver standard main-range items from the local warehouse – and are in a position to meet more unusual wishes from our central warehouse within 24 hours throughout Europe. You can enquire online at any time whether Hella can supply the product you require. You can find out about your order and dispatch status online, too, which means that you know when the product will be delivered. You can give your customers exact dates. Such a logistics service is reliable, makes your work scheduling easier, ensures optimum parts supplies and reduces your storage levels and costs.

#### ■ Continual market research and stock advice

This helps us to make sure you can always work with prices to suit the market, for example. And that you only

stock products that sell well – based on market volume, market trends, passenger car level and wearing rate data.

#### ■ Competent sales representatives

are always available on site, to advise you about the whole range of products available, explain new ranges and products. Our sales representatives will present the creative, target-group-specific sales promotions we have planned, which help increase sales and support your goods presentation.

#### ■ Experienced internal staff

will provide you with all the range and availability information you need, are available for advice on orders and delivery.

#### ■ Commercial training

We offer the aftermarket and garages commercial training sessions for all product areas in the lighting, electrics, electronics and thermal management sectors. The contents of the training sessions comprise the subjects of market, wear rate, range, prices, conditions and sales support.

#### ■ Presentation systems support trade fairs and customer events:

Here we can provide you with different systems for various purposes. One thing they all have in common: Straightforward use, professional presentation, sales-boosting argumentation.

#### ■ The Hella Aftermarket Club provides round-the-clock support:

We have set up the Hella Aftermarket Club for active support of your day-to-day business. The AMC provides you with quick, up-to-date and reliable information on products, technology and marketing 24 hours a day, 7 days a week. As well as information about order status, product availability and prices. You can research all current advertising material here, and the newsletter service will keep you informed of any updates. Last but not least, you will also find technical information, current dates for training sessions and a summary of contacts.

#### ■ Online catalogue – quick access to current data:

The online catalogue gives you quick access to the latest products, part IDs and cross-references.

#### ■ TecCom offers an electronic solution for all parts:

**TecLocal** allows you to benefit from the advantages of availability enquiries, price information and orders via TecCom. Connection to your inventory control system can significantly increase the efficiency of your order processing. **TecCMD** provides your specific price and material data for downloading and further processing. You are automatically informed about changes in products and prices.

#### ■ Hella Service Partner:

We offer appropriately certified garages special support with technical information, training, hotline and end-consumer-oriented sales support.

## Technical Service

### You profit from our innovation.

New headlight technologies and ranges such as thermal management and electronics also present new challenges in terms of the product know-how and specialist knowledge required for perfect repairs, as do the complex programs which have to be used to identify and order parts quickly. We can help you with all these tasks.

#### ■ Practical technical training:

The focus of our training sessions is on failure causes, diagnosis and repair. We have valuable hints and help for you on the subjects of installation/removal and function as well as helpful documentation. The theoretical basics are supplemented by numerous practical exercises and examples. The focus is always firmly fixed on practical work, since the concept has been drawn up by garage technicians.

#### ■ Online training for flexibility:

This type of training allows trainees to decide for themselves when they are going to learn. Individual deficits in knowledge can be made up at the trainee's own pace. This makes online training a sensible supplement to other types of training and also reduces travelling costs and time.

#### ■ Technical information and data – from practice for practical support:

A data request in line with requirements provides valuable support for diagnosis and repairs. It saves time and money, thanks to product information or installation/removal instructions, for example.

#### ■ Helpline provides fast help:

Our hotline can help with technical problems in dialogue either on the phone, by fax or e-mail, whenever you need help. Experienced garage technicians advise you even in the case of difficult problems and come up with quick solutions.

#### ■ Transparent complaints management:

With TecWarranty, complaints can be made electronically and you can find out about decisions and changes every day. The processing time for warranty cases is significantly reduced.

## Alternator regulators - Bulbs

Manufacturer Model	Part no.	Note
<b>Alternator regulators</b>		
Fiat 	5DR 009 728-171	Alternator regulator, 12V
Citroen Fiat Peugeot	5DR 009 728-181	Alternator regulator, 12V
<b>Bulbs</b>		
	8GH 002 089-491	H1 bulb 24V70W Double Power
	8GH 002 090-471	H3 bulb 24V70W Double Power
	8GJ 002 525-511	H4 bulb 24V70W Double Power

Part no. Note

### Bulbs

8GH 007 157-231 H7 bulb  
24V70W Double Power

8GH 008 358-251 H11 bulb  
24V70W Double Power

### Pipe clips

Pipe clips with rubber profile

according to DIN 3016,  
Hoop made of galvanised steel.  
Additional supporting rings made of  
galvanised steel near the fastening holes.

Tape width mm Inside dia.

### Refrigerant analyser

**8PE 351 223-051**  
Refrigerant  
analyser

### Compressor filter screens

Filter screens  
protect the compressor  
from damage caused  
by soiling through  
chips etc.

**8PE 351 231-891**  
0.395" / 10.03 mm  
**8PE 351 231-901**  
0.492" / 12.50 mm  
**8PE 351 231-911**  
0.500" / 12.70 mm  
**8PE 351 231-921**  
0.600" / 15.24 mm  
**8PE 351 231-931**  
0.649" / 16.48 mm  
**8PE 351 231-941**  
0.821" / 20.85 mm

### Lokring Service case

Extension for  
Lokring set  
**8PE 351 231-001**.

With this set,  
hose repairs are  
also possible  
using the Lokring tool.
