Truck bulbs

Application overview

***Ideas today for
the cars of tomorrow***

Dear Customer,

This brochure contains an overview of the comprehensive range of bulbs for the most common trucks in Europe.

You will find the right, top quality bulb for most vehicles and applications, quickly and easily.

The information is based on data provided to us, status April 2008.

The detailed overall summary of the Hella light sources can be found from page 14 onwards.

Symbols

Low beam

Stoplight

Position light/sidelight

High beam

Taillight

Clearance light/sidelight

Fog light

Rear fog light

Indicator light front/rear

Reversing light

Licence plate lighting

Park/position light

Abbreviations/specifications

DP= **D**ouble **P**ower

HD= **H**eavy **D**uty

¹ = amber indicator glass

² = clear indicator glass

³ = double headlight

⁴ = standard headlight

⁵ = 5-chamber light

⁶ = 7-chamber light

Is there any special reason to make sure you use Hella brand bulbs?

A bulb can be considered as a replacement part with a limited service life. Yet the bulb is part of the lighting system: It is an active component of a unit where all the elements should be perfectly matched to one another. Which is why the name Hella guarantees perfect lighting and satisfied customers with spare parts and light sources, too.

Extra options for you! The special bulb programmes.

Whether it's more safety, more light, more longevity or more design, Hella has always got the perfect bulb to fit the bill. Our special programmes will make all your wishes come true because there's always that little bit more from Hella for you.

Double Power bulbs mean more light and more service life.
The Hella Double Power 24 V produces the light by means of a newly developed, single-wound coil. Bulb power has been able to be increased thanks to this single-coil technology.
The Hella Double Power brings more safety and light onto the road without dazzling oncoming traffic. The Hella Double Power reduces costs by increasing service life by up to 100 %!

This means:

- 100 % longer service life
- 50 % less spare parts requirements
- 50 % less downtime
- 50 % less replacement work

Hella Double Power: Twice as good.
