D

Dieser Katalog ist ausschließlich für den gewerblichen Bereich bestimmt. Die Angaben in diesem Katalog sind sorgfältig bearbeitet, Änderungen vorbehalten. Ersatzansprüche aufgrund von Druckfehlern oder anderen fehlerhaften und/oder unvollständigen Angaben sind ausgeschlossen, wir haften nur bei Vorsatz und grober Fahrlässigkeit, im letzteren Fall begrenzt auf den üblicherweise und typischerweise in derartigen Fällen voraussehbaren Schaden. Soweit wir Bezug nehmen auf die Ersatzteilnummern der Fahrzeughersteller, dient dies ausschließlich zu Vergleichszwecken. Eine Verwendung derartiger Angaben in Rechnungen an den Fahrzeugbesitzer ist nicht statthaft. Nachdruck, auch auszugsweise, ist nur mit unserer ausdrücklichen vorherigen schriftlichen Zustimmung gestattet.

GB

This catalogue is solely intended for commercial use. All details in this catalogue have been prepared with the utmost care. They are subject to alteration without previous notification. Compensation claims due to printing errors or other faulty and/or incomplete details are herewith excluded. We are only liable for damage caused intentionally or by gross negligence. In the latter event compensation is limited to the customary and typical foreseeable damage for such cases. In so far as we refer to spare part numbers of vehicle manufacturers, then this is purely for comparative purposes. The use of such details in invoices to vehicle owners is impermissible. Reprints, even of excerpts, are only permissible with our previous explicit written approval.

F

Ce catalogue est destiné exclusivement au secteur commercial. Les indications qui y sont mentionnées ont été traitées avec soin. Sous réserve de modifications. Tous dommages-intérêts en raison d'erreur d'impression ou d'autres indications erronées et/ou incomplètes sont exclus. Nous sommes responsables uniquement en cas de préméditation et de négligence ; en ce qui concerne ce dernier point, notre responsabilité est limitée aux dommages couramment et typiquement prévisibles dans de tels cas. Dans la mesure où nous nous référons aux numéros de pièces détachées de constructeurs automobile, ceci a lieu uniquement à titre de comparaison. L'emploi de telles indications dans les factures remises aux propriétaires de véhicules n'est pas permis. Toute reproduction, même partielle, est autorisée uniquement après notre accord exprès par écrit.

E

Este catálogo va destinado exclusivamente al sector industrial. Las indicaciones contenidas en este catálogo han sido elaboradas cuidadosamente. Reservada cualquier modificación. Se excluyen derechos a indemnización debido a errores de imprenta o a otras indicaciones incorrectas y/o incompletas; nosotros solamente asumimos la responsabilidad en caso de dolo o culpa grave, en el último caso limitado a los daños normal y habitualmente previsibles en tales casos. En tanto que nosotros nos refiramos a los números de piezas de recambio, esto sirve exclusivamente para fines comparativos. No está permitido utilizar tales informaciones en facturas destinadas al propietario del vehículo. La reproducción, también en extracto, solamente está permitida con nuestro consentimiento previo por escrito.

I

Questo catalogo è destinato esclusivamente al settore commerciale. Le indicazioni in questo catalogo sono elaborate accuratamente, con riserva di modifiche. Sono esclusi diritti al riscarcimento del danno a causa di errori di stampa o per altre indicazioni errate e/o incomplete. Siamo responsabili soltanto in caso di dolo e di colpa grave, nell'ultimo caso limitato al danno prevedibile solitamente e tipicamente in casi simili. Per quanto facciamo riferimento al numero delle parti di ricambio dei fabbricanti del veicolo, questo serve esclusivamente a scopi di paragone. Non è ammesso un impiego di tali indicazioni nelle fatture al proprietario del veicolo. La ristampa, anche parziale, è ammessa soltanto con il ns. previo consenso espresso per iscritto.

RUS

Настоящий каталог предназначается исключительно для субъектов предпринимательства. Информация, содержащаяся в данном каталоге, прошла тщательную обработку. Изменения возможны. Претензии по замене, возникшие вследствие опечаток, а также иных искажений и/или неполноты информации, исключены; мы принимаем ответственность только в случае преднамеренных действий, приведших к дефекту, или грубой халатности. В последнем случае, ответственность ограничивается дефектами, являющимися обычными и типичными для аналогичных случаев. Любые наши ссылки на номера деталей и производителя транспортного средства делаются исключительно для целей сравнения. Указание этой информации в счетах, выставляемых владельцу транспортного средства, не допускается. Перепечатка, в том числе и частичная, разрешается только при наличии нашего однозначно оформленного предварительного согласия, совершенного в письменной форме.

Kipp - und Schlepphebel - Sets

Moderne Motoren müssen heute weitaus höhere Anforderungen erfüllen als noch vor 10 Jahren. Das liegt nicht zuletzt daran, dass individuelle Mobilität, Ökologie und Ökonomie häufig im Gegensatz zueinander liegen.

Beispielsweise sorgt der Rollenschlepphebel mit Abstützelement und der Kipphebel mit integriertem Einsteckelement immer für exaktes Ventilspiel und reibungsarmen Ventiltrieb und dadurch für ruhigen Lauf und geringen Schadstoffausstoss.

Bei den RUVILLE Kipp- und Schlepphebeln handelt es sich immer um einen Satz. Das bedeutet, der Kipphebel wird immer mit Einsteckelement geliefert, der Schlepphebel mit Abstützelement.

Schlepphebel-Set

Warum sollten Schlepphebel nur im Satz ausgetauscht werden?

Verschleiß
Wird ein Abstützelement mit einem nicht erneuerten Schlepphebel montiert, entsteht ein ungünstiges Kontaktverhältnis zwischen der Kalotte des Schlepphebels und dem Kopf des Abstützelements, das zu Verschleiß führt.

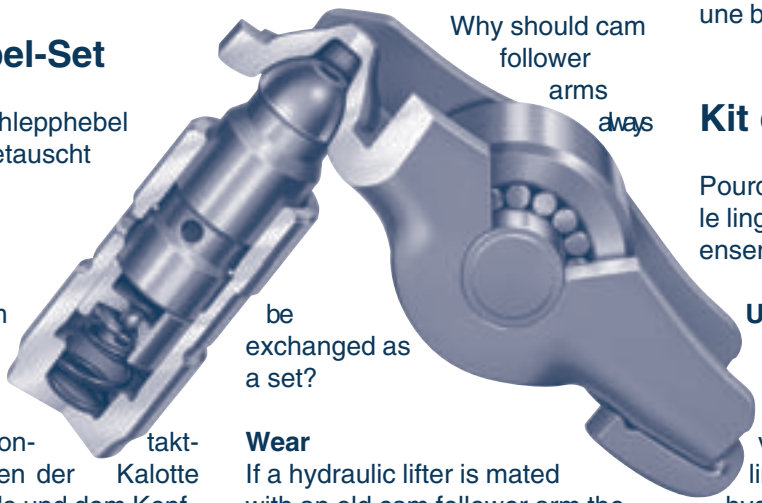
Typenvielfalt – Verwechslungsgefahr bei Lagerhaltung
Der Unterschied bei den Abstützelementen besteht hauptsächlich in der Absinkzeit. Wird ein falsches Abstützelement zu einem Schlepphebel verbaut, können erhebliche Funktionsstörungen im Ventiltrieb des Motors eintreten, die zu einem kapitalen Motorschaden führen können.

Modern engines must nowadays satisfy far greater demands than 10 years ago. Demands in performance, environmental concerns and running costs often conflict.

An example of this is the way that cam follower arms with hydraulic lifters and rocker arms with integral tappets ensure exact valve clearances and low friction valve actuation at all times, which is essential for smooth running and low emissions.

RUVILLE rocker arms and cam follower arms are always treated as a set. This means that rocker arms are always supplied with integral hydraulic tappets, and cam follower arms with their hydraulic lifters.

Cam follower arm set



Why should cam follower arms always be exchanged as a set?

Wear
If a hydraulic lifter is mated with an old cam follower arm the head of the lifter will not seat properly in the recess of the arm and as a result will lead to premature wear.

Variety of types – danger of fitting wrong type
Compression time is one of the major differences between hydraulic lifters. If the wrong type of lifter is mated with a cam follower arm, serious changes in valve timing and function will result, leading to poor performance and possible engine failure.

Les moteurs modernes doivent satisfaire aujourd'hui à des exigences nettement plus pointues qu'il y a 10 ans seulement. Cela vient en partie du fait que la mobilité individuelle, l'écologie et l'économie sont bien souvent en contradiction.

Par exemple, le linguet à galet équipé d'une butée hydraulique ainsi que le culbuteur avec un élément hydraulique intégré assurent toujours un jeu précis, ainsi qu'une commande de soupapes à faible friction, garantissant de ce fait un fonctionnement silencieux du moteur, ainsi que de faible émissions de substances polluantes.

Les culbuteurs et linguets proposés par RUVILLE sont toujours en kit. C'est-à-dire que le culbuteur est toujours fourni avec un élément hydraulique intégré et le linguet avec une butée hydraulique.

Kit de linguet

Pourquoi faut-il toujours remplacer le linguet et la butée hydraulique ensemble ?

Usure
Si l'on monte une butée hydraulique sans remplacer le linguet, il en résulte un mauvais contact entre la calotte du linguet et l'embout de la butée hydraulique, ce qui accélère de l'usure.

Risque de confusion au stockage en raison de la diversité des types
La principale différence entre les diverses butées hydrauliques est leur temps de compression. Dans le cas ou une butée hydraulique avec le mauvais temps de compression est assemblée avec un linguet, cela peut provoquer des dysfonctionnement importants au niveau de la commande des soupapes qui peuvent conduire à des dommages moteurs majeurs.

Kipp - und Schlepphebel - Sets

Kipphebel mit integriertem hydraulischen Einsteckelement

Warum sollten Kipphebel nur im Satz getauscht werden?

Passmaß
Die Aufnahmebohrung des Kipphebels für das hydraulische Einsteckelement enthält ein Passmaß für den Außendurchmesser des hydraulischen Einsteckelements.

Demontage nicht möglich
Das hydraulische Einsteckelement läßt sich nur unter Anwendung eines Werkzeugs (z.B. Zange) aus dem Kipphebel lösen. Dadurch ist die Wahrscheinlichkeit sehr hoch, daß bei einer Demontage das hydraulische Einsteckelement „verdrückt" und somit beschädigt wird.

Schlechtes bzw. verschmutztes Öl
Die hydraulischen Einsteckelemente werden von den Ölzulaufbohrungen des Kipphebels mit Öl versorgt. Ausfallgrund können daher auch „verstopfte" Ölzulaufleitungen des Kipphebels sein, die durch Ablagerungen alten Öls oder Ölschlicke verursacht werden und somit die Ölversorgung des hydraulischen Einsteckelements nicht mehr gewährleistet ist.

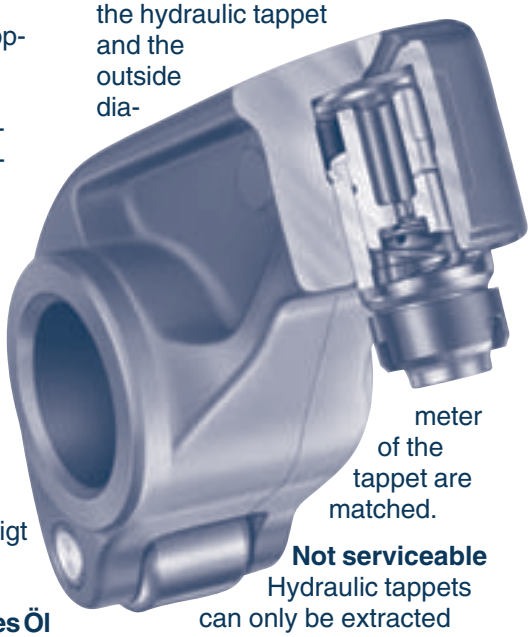
Verschleiß Nockenrolle
Die Nockenrolle (Nadellager) des Kipphebels unterliegt ständigem Verschleiß aufgrund des Kontakts zur Nocke der Nockenwelle.

Typenvielfalt - Verwechslungsgefahr bei Lagerhaltung
Der Unterschied von hydraulischen Einsteckelementen besteht hauptsächlich, wie beim hydraulischen Abstützelement, in der Absinkzeit.
Wird ein falsches hydraulisches Einsteckelement zu einem Kipphebel verbaut, kann ein kapitaler Motorschaden entstehen.

Rocker arms with integral hydraulic tappets

Why should rocker arms always be exchanged as a set?

Matched tolerances
The mounting bore in the arm for the hydraulic tappet and the outside diameter of the tappet are matched.



Not serviceable
Hydraulic tappets can only be extracted from the rocker arm by using a tool (e.g. pliers). In doing so there is a very high risk of damaging the tappet by "over-extending" the internal hydraulics.

Old or dirty oil
Hydraulic tappets are supplied with oil via feed holes in the rocker arm. "Clogged" feed holes can be caused by deposits or sludge from old oil. Once the tappets run dry failure is almost certain.

Cam roller wear
Due to the sustained contact of the roller with the camshaft lobe, the needle roller rocker arm is subject to general wear and tear over a period of time.

Variety of types – danger of fitting the wrong type
Compression time is one of the major differences between hydraulic lifters. If the wrong type of lifter is mated with a cam follower arm, serious changes in valve timing and function will result, leading to poor performance and possible engine failure.

Culbuteur avec élément hydraulique intégré

Pourquoi faut-il toujours remplacer le culbuteur et l'élément hydraulique ensemble ?

Ajustement
L'orifice du culbuteur destiné à l'élément hydraulique à une cote d'ajustement pour le diamètre extérieur de l'élément hydraulique.

Démontage impossible
Il n'est possible de démonter la butée hydraulique du culbuteur qu'en utilisant un outil (une pince par ex.). Il est très probable qu'au cours du démontage l'élément hydraulique soit «déformé» et donc détérioré.

Huile souillée ou inadéquate
L'huile arrive aux éléments hydrauliques par les orifices d'arrivée d'huile du culbuteur. Une panne peut donc être provoquée par «l'obturation» des conduites d'arrivée d'huile du culbuteur, qui sont le résultat de dépôts d'huile usagée ou des boues d'huile, si bien que l'alimentation en huile de l'élément hydraulique n'est plus assurée.

Usure du galet de came
Le galet de came (roulement à aiguilles) du culbuteur subit une usure permanente car il est en contact avec la came de l'arbre.

Risque de confusion au stockage en raison de la diversité des types
De même que pour la butée hydraulique, la principale différence entre les divers éléments hydraulique intégrés est leur temps de compression. Si l'on monte un élément hydraulique intégré inadapté à un culbuteur, cela risque de provoquer des dommages moteurs majeurs.
