**The car rack system that
adds space to your car**
Catalogue 2008

If you can think of it – we can carry it.
Your bike. Your kayak. Your skis.
Your boat. Your tent. Your gear.
All within reach.
Wherever you want to go.

Ski carriers | 42-47

Thule has transport solutions making your car roof the ideal place for carrying the equipment you need to seek out the powder.

Water sport carriers | 26-31

Whatever your water sport passion, Thule has a transport solution to bring your gear to the water's edge.

Roof boxes | 32-41

Instead of buying a bigger car – expand it with the help of a smartly designed, capacious and easy-to-load roof box from Thule.

Bike carriers | 06-25

You never know when the urge will come to switch from four to two wheels. Thule can offer you three smart ways to transport up to four bikes safely, easily and in style.

Lines that harmonise with one of the world's most design-intensive products – the car

Thule's design process starts as soon as the idea for a new product sees the light of day. The design is based around a range of different variables, with visuals having to be balanced against user needs, function, the production process, materials and environmental considerations. Other key variables are aerodynamics and safety. The visual appearance develops gradually during the long and detailed development work. Once the design has been fully hammered out it should fit in with Thule's extensive design policy. "If you look at our products, you'll see that they follow an extremely consistent design language," says Henrik Eriksson, designer at Thule. "Instead of following extreme trends and short-lived fashions, we stick to refined and stylish shapes that harmonise with a design that sets the bar extremely high – the design of your car."

“ The visual look is just one part when we design a Thule product. In our design work, we always focus on the needs of the user, the function, the choice of materials and environmental considerations. ”

Henrik Eriksson, Designer, Thule Sweden

The Design

Cycling to freedom

Mountain Bikes have opened up a whole new level of freedom for those who love to get around on two wheels. They are designed and equipped for the toughest terrain imaginable. So put them on the roof, lock them in place and get out there!

The place:

Livigno, Italy

The equipment:

Thule Rapid System

750 with aerobar

Thule OutRide 561

Thule ProRide 591

Cycling competition, day trip, or a free ride? Use the car roof

A roof-mounted bike carrier from Thule keeps your bike in a firm and secure grip. Kilometer after kilometer. High above road dust, dirt and grit. Thule has three first-class bike carriers developed, designed and constructed to be mounted on the car roof. And they're all extremely easy to fit directly onto Thule's ingenious load carriers.

01. Professionals often prefer the car roof for their bikes. The reason is simple: the bikes are transported high above the dust and dirt of the road.

02. Got a towbar? With your bikes on the roof, the towbar is free to attach your caravan, trailer or whatever other equipment you usually hitch up.

03. Thule has three convenient solutions for carrying your bike on the roof – all designed to make it quick and easy for you to load, secure and lock the bike in place.

THULE ProRide
The optimum bike carrier
for the car roof.

With its stylish aluminium frame, great stability and extremely easy loading, this is an uncommonly smart design. After having lifted up the bike, which immediately comes to rest against the frame holder, simply turn the knob. Secure the wheels and you're done! All adjusting and securing is done comfortably at roof height. The perfect mode of transport – whether you're heading for tough mountainbiking terrain or stunning cycle trails.

The smartest, most elegant solution for loading and transporting a bike on the roof

THULE | ProRide 591

- The self-adjusting and upright (you don't have to hold it in position) frame holder, into which the bike automatically slides, makes bike loading easy.
- Adjusting and securing is done comfortably and quickly, with a turning knob, at roof height.
- Quick-release straps, adjustable for different wheel sizes, hold the wheels securely in place.
- Light and convenient aluminium design.
- Can easily be fitted on either side of the car roof.
- Lockable - bike to bike carrier, bike carrier to load carrier.
- Best in test.

THULE | OutRide 561

Professional and stylish carrier for those who want to fork-mount their bike.

- Easily adjustable snap-on fastener for all types of forks, including carbon fibre forks.
- Suits bikes equipped with disc brakes.
- Quick-release strap for rear wheel, adjustable for different wheel sizes.
- Integrated adapter for bikes with 20 mm axles.
- Light and convenient aluminium design.
- Quick and easy mounting - no loose parts.
- Lockable – bike to bike carrier, bike carrier to load carrier.

THULE | FreeRide 530

A safe and robust bike carrier with a new, more functional design.

- Frame holder with quick-lock, fits most frame sizes.
- Lockable - bike to bike carrier, bike carrier to load carrier.
- Quick release straps, adjustable for different wheel sizes.
- Easy mounting, no loose parts.

Special accessories

THULE Wheel adapter 9772

Special protection for road bikes and mountainbikes. Place between the strap and the rim. Protects the rim on mountain bikes and helps secure the wheels of road bikes.

THULE Wheel Bag 560/563 XL

Specially designed high-quality bag in two sizes, to protect the bike wheel during transport and storage. Wheel Bag 560 is designed for road bike wheels and 563 XL for wheel sizes up to 74 cm. Extra reinforcement to protect spokes and hub. Inside pocket for small tools, etc. Strong nylon handle. Great accessory, for example for Thule OutRide.

THULE One Key system

Simply replace all the lock cylinders on your load carrier and accessories (roof box, bike carrier, ski carrier etc.) and you can use the same key for all the locks! Depending on how many Thule products you have, you can choose a One Key System with 4, 6, 8 or 12 locking cylinders.

Art. no. 544, 4 cylinders, 2 keys
 Art. no. 596, 6 cylinders, 2 keys
 Art. no. 588, 8 cylinders, 3 keys
 Art. no. 452, 12 cylinders, 4 keys

THULE Wheel Carrier 545-1

A carrier for the front wheel with regular axle. Perfect accessory for Thule OutRide. Possible to fold down when not in use. Fits both aero and square bars.

If your car has a towbar, we've got solutions for bikes and other loads

Thule offers an extremely wide range of bike carriers for mounting on a towbar – from simple, but secure, designs to elegant and advanced transport solutions for up to four bikes. All easy to mount and to store. This Thule category also includes an unusually flexible transport solution which, with various accessories, can carry many of your bulkiest loads. As well as bikes, of course.

01. After a day-long trek, maybe you don't want to lift your bike higher than necessary? Put the bike on a towbar-mounted bike carrier.

02. If the whole family wants to join you on your bike trip, a high-capacity towbar mounted bike carrier is what you should choose.

03. Do you want to bring along your bike but your car roof is occupied by a box and a kayak? A towbar mounted bike carrier is the solution.

THULE EuroClassic G5
Combining stylish design
with superior function.

This towbar-mounted bike carrier is in a league of its own when it comes to elegance. With its bold good looks, the Thule EuroClassic G5 works beautifully with the lines of every modern car. Add the fact that it is highly stable and extremely easy to mount and load, and you have the ideal bike carrier for those long, relaxing cycling trips with the whole family.

A new compact 2-bike version and a new high-capacity version of the No 1 bike carrier in its category

THULE | EuroClassic G5 908

The new, compactly designed 2-bike version of our most exclusive bike carrier is even easier to mount and load.

- Simple securing to the towbar by closing a lever – one movement, one hand.
- New, smart tilt function for convenient boot access with bikes in place.
- Detachable and easy-to-move frame holders.
- Innovative design conforms to the latest car models.
- Fits all bikes and wheel sizes.
- Easy to fold up, stow away and store.
- Lockable – bike to carrier, carrier to towbar.
- Carries two bikes, three with adapter 9081.

New!

—  x2+1 —

THULE | EuroClassic G5 909

The new high-capacity version of the most stable and elegant bike carrier for towbar mounting.

- Simple securing to the towbar just by closing a lever – one movement, one hand.
- New, smart tilt function for convenient boot access with bikes in place.
- Detachable and easy-to-move frame holders.
- Innovative design conforms to the latest car models.
- Fits all bikes and wheel sizes.
- Easy to fold up, stow away and store.
- Lockable – bike to carrier, carrier to towbar.
- Carries three bikes, four with adapter 9081.

New!

—  x3+1 —

Features

01. Movable bike frame holder

The entire bike frame holder can be easily released from the carrier, which makes it very easy to load the bikes, especially when you load many bikes. It is just as easy to attach again, to where it best corresponds with the position of the bike frame.

02. EuroClassic G5 Coupling

Simple securing to the towbar by closing a lever – one movement using one hand.

03. Tilt function

The carrier can be tilted, which gives access to the boot even when bikes are mounted. With clearance for vans with large rear doors, like the VW T5.

Special adapters

04. Need to transport an extra bike? Thule EuroClassic G5 9081 adapter

With the help of Bike Adapter 9081 it is possible to increase the capacity of both the EuroClassic G5 models with one bike. Max. load capacity 15 kg.

05. Having a rear mounted spare wheel? Thule EuroClassic G5 9042 Spare wheel adapter

Allows you to mount a Thule EuroClassic G5 on cars with a rear mounted spare tyre. Reduces load capacity with one bike. Add adapter 9081 if you want to increase the capacity with one bike.

THULE | EuroWay 945/947

The bike carrier for those looking to combine safe transport with great design.

- Strong, patented coupling suits most types of towbars, no adjustment necessary.
- Tilttable with bikes in place for easy access to the boot.
- Detachable and easy-to-move frame holders.
- Fits most bikes and wheel sizes.
- Easily folds flat for simple storage.
- Comes in two sizes: Thule EuroWay 945 for two bikes, and Thule EuroWay 947 for three.

THULE | RideOn 9502/9503

Easily fitted and highly practical bike carrier with great capacity.

- Patented coupling, fits most towbars.
- Tilttable with bikes in place for easy access to the boot.
- Detachable and easy-to-move frame holders.
- Bikes fixed in place with strong straps.
- Lightboard included for increased safety and fulfillment of legal demands.
- Thule RideOn 9502 carries two bikes and Thule RideOn 9503 carries three bikes.

Flexible bike carrier with ISO approved towbar coupling and quick-tilt

THULE | HangOn 3B 972/4B 9708

- Strong ISO approved coupling that needs no pre-adjustment for fixation.
- Tiltable with bikes in place for easy access to the boot.
- Folds flat for easy storage.
- Strap and reflectors included for extra safety.
- Prepared for fitting lightboard 976
- 3B 972 carries three bikes and 4B 9708 carries four bikes.

THULE | HangOn 3B 974

Flexible bike carrier with ISO approved towbar coupling.

- Strong ISO approved coupling that needs no pre-adjustment for fixation.
- Folds flat for easy storage.
- Strap and reflectors included for extra safety.
- Prepared for fitting lightboard 976
- Carries three bikes.

New!

THULE | BoltOn 9705

The tiltable bike carrier for bolted towbar – extremely easy to remove when not in use.

- Fitting of carrier to car with existing bolts and nuts – easily removable with the bolted coupling mounted.
- Tiltable with bikes in place for easy access to the boot.
- For all bikes and wheel sizes.
- Towbar accessible for caravan or trailer with bike carrier mounted.
- Carries four bikes at convenient height from the ground.

THULE | Xpress 970

The only bike carrier of its kind with an ISO approved towbar coupling.

- Fits most frame sizes.
- Soft, protective frame holders keep the bikes in place.
- Pre-assembled with straps and reflexes for extra safety.
- Prepared for fitting lightboard 976.
- Folds flat for easy storage.
- Carries two bikes.

Four transport solutions in one for all cars with a towbar

The base unit for this flexible solution is called the Thule EasyBase. With four practical accessories and a few simple manoeuvres, you can transform the Thule EasyBase into whatever transport solution you need at the time.

Start with the base unit

THULE | EasyBase 949

The base unit of the flexible new carrier system.

- Platform made of strong metal tubes.
- Patented coupling fits all types of towbars, and needs no adjustment.
- U-bar easily folds down for easy storage.
- Expands with Thule EasyBase accessories.
- Load capacity 60 kg.

Add your choice of accessories

THULE | EasyBasket 948-3

Makes EasyBase ideal for even the bulkiest load.

- Easily fits straight onto EasyBase, no tools needed.
- With its generous dimensions, it will load everything from the lawnmower to bags with autumn leaves.
- Perfect for bulky, damp or dirty loads.

THULE | EasyBike 948-1/948-2

Converts EasyBase to a practical bike carrier for 1-3 bikes.

- Easily fitted straight onto EasyBase - no tools required.
- For all sizes of bike, can be combined to carry a maximum load of 3 bikes.
- Easy to load and keeps bikes firmly secured.

THULE | BackUp 900

Apply Thule BackUp and you'll get plenty of extra loading space.

- Robust luggage box, which gives the car 420 litres of extra space.
- Perfect if you want to use the car roof for a different load or when you want to carry bulky items that need protection.
- Can also be fitted to Thule EuroClassic Pro and Thule BackPac.

THULE | EasyBag 948-4

Additional storage space, that one can simply fold and store away.

- Fitted straight onto EasyBase using strong straps, no need for tools.
- Measures 110x55x53 cm, ideal for sportswear, sports equipment, etc.
- Made of waterproof material, with taped seams and a zipper with integrated lock.
- Special storage bag included.

Take the scenic route

Some paths are just too captivating not to follow, whether you stumble on them by chance or have planned your cycling route with great detail. Bring your bikes along and you can act on the spur of the moment.

No towbar? No problem. Thule has bike carriers that fit to the rear door

You don't feel like putting your bikes on the roof and you don't have a towbar, but you feel like bringing your bikes with you? Thule has the answer. We have several different bike carriers that fit directly onto the rear door with a simple snap-on system. They all sit securely in place, carry several bikes and are very easy to load and unload. They then fold up flat for storage in the car or garage.

01. When you don't want to lift your bike up on the car roof and your car doesn't have a towbar – this is the obvious solution.

02. Do you want to transport your bikes safely and securely inside the rear door? Thule has the solution.

03. Got a towbar? With your bikes on a rear-mounted bike carrier, you can attach your caravan, trailer or whatever other equipment you usually hitch up.

THULE ClipOn High
Unbeatably easy bike transport
for cars without towbars.

Using the smart snap-on system, this carrier can be mounted in just a few minutes onto the rear door of the car, where it will sit securely without obscuring rear lights or number plate. This is a convenient bike carrier that is supremely easy to load and unload. Perfect for taking a couple of bikes to your summer hideaway, where the bike carrier lifts off and folds up for easy storage. It takes up little space once folded.

A fast-mounted and convenient bike carrier with a high position that keeps the rear lights visible

THULE | ClipOn High 9105/9106

- Easy to mount to the rear door with a unique snap-on system and patented locking mechanism.
- Rubber-coated frame holders.
- All parts in contact with the car are coated with rubber for protection.
- Adjustable quick-release straps hold the wheels securely in place.
- Quickly folds up for ease of storage.
- Carries up to two bikes.
- See the Thule Guide for car recommendation list.

THULE | ClipOn 9103/9104

A fast mounted carrier for stable transport of up to three bikes.

- Easy to mount onto the rear door with a unique snap-on system.
- All parts in contact with the car and bikes are coated with rubber for extra protection.
- Adjustable quick release straps hold the wheels securely in place.
- Quickly folds up for ease of storage.
- Carries up to three bikes.
- See the Thule Guide for car recommendation list.
- Prepared for fitting Thule lightboard 976.

THULE | BackPac 973

Special carrier for transporting bikes on vans and jeeps.

- Raised position, will not obscure the number plate or rear lights.
- A special kit adjusts the carrier to fit a number of vehicle models.
- Carries up to two bikes, or three to four bikes with an adapter.
- See the Thule Guide for car recommendation list.

New!

THULE | Freeway 968

Economic alternative mainly for saloon cars.

- Easy to mount onto the rear door.
- All parts in contact with the car and bikes are coated with rubber for extra protection.
- Carries up to three bikes.
- See the Thule Guide for car recommendation list.
- Prepared for fitting Thule lightboard 976.

THULE | Hitching Post Pro 935

Special carrier for cars with an American "hitch receiver" towbar.

- Fits hitch receivers - 1 1/4 inch.
- For all types of bikes.
- Tiltable with bikes in place for easy access to the boot.
- Carries up to four bikes.

THULE | InDoor 592

Bike carrier for those who want to transport their bike inside the car.

- Carries up to two bikes, or three bikes with an adapter.
- See the Thule Guide for car recommendation list.

Special accessories for your bike carrier

Our range of special accessories includes a durable, lockable case for tools, clothing and anything else you might need to take with you. Plus much more to make life easier when carrying your bike to and from your competition or trip.

THULE BikeCase 836

Super rugged hard-shell travel case for road and mountain bikes. With sturdy straps that keep the case together, gear bags for tools, clothes etc. Wheels for easy handling. Lockable.

THULE Wheel adapter 9772

Special protection for road bikes and mountainbikes. Place between the strap and the rim. Protects the rim on mountain-bikes and helps secure the wheels of road bikes.

New!

THULE Number plate 9762

A blank plate for fitting to the numberplate holder of the bike carrier in countries where it's not allowed to remove the real plates from the car. Write on it by hand or use stickers.

New!

THULE 3rd Brake light 9902

Accessory for cars when the load and bike carrier cover the car's rear lights. Specially made for mounting on Thule rear mounted products or the bike frame.

THULE Lock 957

For locking Thule HangOn and RideOn to the towbar.

THULE 9901

Converts the car's 7 pin electrical outlet to 13 pin.

THULE Cable lock 538

Plastic coated, 180 cm long steel cable that locks almost anything. With lock protection.

THULE Bike frame adapter 981/982

Telescoping for easiest possible attachment to bikes with non-standard frames, as well as ladies bikes and BMXs. Facilitates fitting of the bike to the bike carrier. Also available in a non-telescoping version (982). Adapter 981 for carriers with bikes hanging (Thule ClipOn, Thule HangOn etc) and adapter 982 for carriers with bikes standing on a platform (Thule EuroClassic G5, Thule EuroWay etc).

THULE Wall hanger 9771

For functional storage of bikes and bike carriers. Load capacity 40 kg.

New!

THULE Lightboard 976

Substitutes the most important rear lights on your car. Easily fitted with adapter 9761 (Thule HangOn, Thule Xpress, ClipOn, Thule Freeway and Thule Xpress), or by using straps (Thule BoltOn). Replaces Lightboard 975.

"I know that I can rely on Thule when it's time to transport my bikes to the start so that I can concentrate on the race."

THULE One Key system

Simply replace all the lock cylinders on your load carrier and accessories (roof box, bike carrier, ski carrier etc.) and you can use the same key for all the locks! Depending on how many Thule products you have, you can choose a One Key System with 4, 6, 8 or 12 locking cylinders.

Art. no. 544, 4 cylinders, 2 keys
Art. no. 596, 6 cylinders, 2 keys
Art. no. 588, 8 cylinders, 3 keys
Art. no. 452, 12 cylinders, 4 keys

Tips!

01. If your carrier is wide enough and you choose a slimmer roof box, you can carry everything you need. With the right accessories, you can transport two bikes next to the roof box!
02. Is your bike equipped with disc brakes and you want to carry it fork mounted? Thule has got the bike carrier that suits your demands.
03. Thule's towbar mounted bike carriers allow you to use the roof for boxes, watersport carriers, ski carriers and other transport solutions.

Challenge the forces of nature

Multisport – kayaking, biking and running – is the ultimate test if you want to challenge yourself and the forces of nature. Just make sure to use the energy when it is needed – in the actual race, not in getting there.

The place:

Lecco, Italy

The equipment:

Thule Rapid Fixpoint XT Low 753

Thule Thule Hull-a-Port Pro 837

Thule EuroWay 947

When the next experience is just around the corner, you need your boat within easy reach

The water is rippling, the sun is rising, only distant sounds can be heard. You unload the kayak. Quickly. Easily. Quietly. Taking you and your waterborne transport on experiences like this is exactly why Thule has developed a whole range of carriers for kayaks, canoes, surfboards and small boats. Smart, secure solutions that allow you to save your energy for when it's really needed – in the battle against wave, wind and current.

01. You need a transport solution for the kayak that leaves space for a box? Take a look at Thule's angled, space saving water sport carriers.

02. No more knots! You need only hook Thule Quick Draw to your car and water craft, give it a yank and get going.

03. Will you be alone on your kayaking trip? Thule offers watersport carriers that can easily be loaded by a single person.

THULE Hull-a-Port PRO

The ultimate in smart, easy-loading transport solutions for your kayak.

The Hull-a-Port PRO, an evolution of the successful Thule Hull-a-Port, can easily be folded down when not in use. Among other things this reduces wind resistance and increases clearance for car park entrances. Just like its predecessor, the Hull-a-Port PRO has an angled, space-saving design, that leaves space enough on the car roof for two kayaks or one kayak plus extra equipment. It's easy to load – simply angle the kayak against the pads and it sits securely at once.

Thule Hull-a-Port

Tiltable, space-saving and easy-to-load kayak carrier

THULE | Hull-a-Port Pro 837

- Folds down to the level of the load carrier, so there is no need to take it off to get into the garage.
- Stable, space-saving design.
- Pads with extremely thick felt layer to protect the hull.
- Powerful straps keep the kayak firmly secured.
- A rubber pad around the strap protects the kayak and the car from scratches during loading and transport.
- Easy mounting system.

New!

New design!

THULE | Hull-a-Port 835-1

Tried and tested space-saving, easy-to-load kayak holder.

- Stable, space-saving design.
- Pads with extremely thick felt layer to protect the hull.
- Powerful straps keep the kayak firmly secured.
- Rubber protection for buckle protects your kayak and the car while facilitating the loading process.
- New design.
- Easy mounting system.

THULE | Kayak Carrier 874

Adapts perfectly to the shape of the kayak.

- Four adjustable rubber supports keep the kayak stable during transport.
- Large pads protect the hull.
- Powerful straps keep the kayak firmly secured.
- Rubber protection for buckle protects your kayak and the car while facilitating the loading process.

THULE | Kayak Carrier 520-1

Foldable kayak stacker.

- Stable, space-saving design.
- Easy to fold down when not in use.
- Protection for buckle.
- Carries up to two kayaks.

THULE | Hydroglide 873

The kayak carrier that is easily loaded by one person.

- Felt-lined rear supports for easy loading. Simply slide the kayak up onto the car roof.
- Large pads protect the hull.
- Powerful straps and adjustable rubber support on the front holder keep the kayak firmly secured.
- Rubber protection for buckle protects your kayak and the car while facilitating the loading process.

THULE | Wave Surf Carrier 832

Specially designed carrier for surfboards.

- The board sits in a soft, protective rubber cradle.
- Secured with straps.
- Carries up to two boards.

THULE | Canoe Carrier 579

Holds both canoes and small boats securely in place.

- Soft support pads for protection.
- Secured with straps.
- Carries one canoe or small boat.

THULE | Sailboard Carrier 533/833

Developed and tested by surfers for surfers.

- Classic Thule product used by windsurfers and surfers around the world.
- Secured with straps.
- Carries one board and two masts.
- 533 for use with square bar, 833 for use with aero bar.
- Protective pads included.

THULE | Multi-Purpose Carrier 855

Specially designed carrier for your accessories.

- For transporting oars, paddles, masts, etc. up to 10 cm in diameter.
- Integrated cable locks to secure accessories.
- Carries up to three oars, paddles, etc.
- Available in a set of two.

Special accessories

THULE QuickDraw 838

Perfect for use as a bow and stern line, you need only hook the Quick Draw to your car and boat, give it a yank, and get going. A catch automatically locks when you pull tight and releases just as easily by pushing a button when you want to undo it again. We recommend that both the bow and stern are secured to the car when transporting a kayak or boat. You get two Quick Draws in a box.

THULE Windsurfing pads

Vinyl-covered protection for everything from boards to small boats. Also good as separators when transporting several boards. Available in three colours: 5602-red, 5603-black and 5601-blue.

THULE Straps

Sturdy, adjustable straps for safe transport with a tension strength of 300 kg.

Art. no. 521, 1x275 cm.

Art. no. 524, 2x275 cm.

Art. no. 522, 1x400 cm.

Art. no. 523, 2x400 cm.

Art. no. 551, 2x600 cm.

Unload. Saddle up. Ride off.

The open fields, the shallow waters and the soft forest trails – all are just waiting to be explored. Load up, take off and look for that perfect place to begin your ride. Unload your horse and tack with ease. Then simply saddle up and ride off on an adventure.

Does your car feel one size too small? Here are the roof boxes to make it expand with style

Thule has roof boxes to make your car grow, without spoiling the carefully considered look of the car. Boxes where the design language follows the laws of aesthetics as well as aerodynamics. Boxes built to a level of safety that is a step ahead of international safety standards. And added to that is a whole host of smart functions that are unique to Thule – functions that make Thule's boxes as easy to mount as they are to load, whether you're bringing skis, a baby buggy or just luggage.

THULE Spirit

Form, function and safety in a class of its own.

Just look at the lines – the balanced and streamlined design! Just like in modern car design. The fluid shape makes for perfect aerodynamics – wind resistance, wind noise and vibrations have been reduced to a minimum. The wide range of unique and smart features makes it the perfect roof box.

01. Do you need space for a lot of luggage? Place for your skis? Do you just want to transport small items? 22 different boxes give you all alternatives.

02. Every roof box from Thule is built for a tough outdoor life year after year, in summer and in winter.

03. Smart mounting solutions combined with low weight makes a Thule box very easy to mount.

When you are looking for the ultimate box,
only the best will do

Go to www.thule.com and find out which Thule roof box looks best on your car!

Special accessories

THULE Box Ski Carrier Adapter

Want to transport your skis safely and in style? We recommend using the Thule box ski carrier. Just select the right ski carrier for your box model, see technical information on page 56-57.

New!

THULE Boxlift 571

The smartest way to store a roof box. Would you like to load up and leave quickly? With the Thule Boxlift, you can easily lift up the box to the garage ceiling. This lift works perfectly, even for kayaks and surfboards.

THULE T-Track Adapter

If you have special load carrier profiles or just want to place your box in a discreet way on the load carrier, you can also use the Thule T-track adapter as an option. Please select the appropriate adapter kit, according to the T-track dimension of your load carrier and the Thule mounting system.

New!

THULE One Key system

Simply replace all the lock cylinders on your load carrier and accessories (roof box, bike carrier, ski carrier etc.) and you can use the same key for all the locks! Depending on how many Thule products you have, you can choose a One Key System with 4, 6, 8 or 12 locking cylinders.

- Art. no. 544, 4 cylinders, 2 keys
- Art. no. 596, 6 cylinders, 2 keys
- Art. no. 588, 8 cylinders, 3 keys
- Art. no. 452, 12 cylinders, 4 keys

Thule's flexible "fold & store" box is now available in two different sizes

The newest contribution in this foldable roof box range is ideal for transporting your skis. A Thule Ranger box is just as safe and functional as a regular box, but requires only a fraction of its storage space. This in combination with a number of clever features, strong waterproof material, sealed seams and zipper, makes it a true Thule product. Simply pick it up, unfold onto the load carrier, fix with the smart Easy-Snap system and start loading!

The easy to store roofbox with space enough for your skis

THULE | Ranger 500

- Foldable for convenient storage and handling. Turns into a compact package that requires very little storage space.
- Easy-Snap quick mounting system for easy fitting of the box, no tools required.
- Made of waterproof material, with taped seams and a sealed zipper with integrated lock.
- Ski carriers for secure ski transport included.
- Extension areas with zippers to adjust the loading space to the size of the load.
- Weight only 10 kg, loading capacity up to 50 kg.
- Colours: Black/Silver grey.

New!

THULE | Ranger 90

The soft roof box you can roll up and stick under your arm.

- Foldable for easy transport and storage – turns into a small package that easily fits in the boot of the car.
- Easy-Snap quick mounting system for easy fitting of the box, no tools required.
- Made of waterproof material, with taped seams and a sealed zipper with integrated lock.
- Special bag for storing the rolled-up box included.
- Weight only 7 kg, loading capacity up to 50 kg.
- Colours: Black/Silver grey.

What sort of box do you need? Choose model, size and colour

Looking for the ultimate in style? The Thule Spirit is the most perfectly shaped roof box on the market.

Lots of luggage? A box like the new Thule Atlantis 900 carries an amazing 650 litres of luggage.

Lots of small items? Thule Pacific 100 is one of our shortest boxes, but surprisingly spacious.

Difficult to store a roof box? Thule Ranger 90 can be rolled up and stowed away in a cupboard

Choose the right roof box and you can carry your bikes too. If your carrier is wide enough and you choose a slimmer roof box, you can carry everything you need. With the right accessories, you can transport two bikes or a kayak next to the roof box!

Unique Thule roof box features

01. Power-Grip/ Fast-Grip

Thule's patented quick mounting systems, Power-Grip and Fast-Grip, help simplify the fitting of the box. With one hand simply tighten the grip claws around the load carrier bar by turning the knobs inside the box. For convenience the Power-Grip system is pre-mounted inside the box. For maximum security, both systems centre themselves over the load carrier bars during tightening. Power-Grip is standard on Thule Spirit and Thule Atlantic and Fast-Grip is standard on Thule Pacific.

02. Thule diffuser technology

Longitudinal air channels and a spoiler on the box base minimize air resistance, wind noise and vibrations for best possible driving performance. Standard on Thule Spirit.

03. Dual-Side

Allows you to open the box from both sides, for easy mounting, loading and unloading. Standard on Thule Spirit, Atlantis and X1.

04. Dual-Force

A patented spring system for easy opening and closing of the box. Standard on all Thule boxes.

05. Central locking

Patented safety locking system – the key can only be removed if all locking points are closed. Standard on all Thule boxes with side opening. A new grip-friendly key for better handling is standard on Thule Spirit and Atlantis.

Organize your gear quickly and easily with the Load & Go series

This new bag range is specially designed to fit Thule roof boxes, but is also perfect to use in the boot of your car or on your carrier basket. The bags provide an organized and efficient storage solution for everything from clothes to camping gear and other sports and travel items. With a water resistant base you can be certain that your gear stays dry.

- 01. Go Box Express 8004
- 02. Go Box 8005
- 03. Go Pack Mesh 8003
- 04. Go Pack 8002
- 05. Go Pack Nose 8001

THULE | Go Pack Set 8006

Four smart bags that fit perfectly in Thule roof boxes.

- Four-pack including three Go Packs 8002 and one Go Pack Nose 8001.
- Water resistant bases to protect the load.
- Shoulder straps and grips for easy and comfortable handling.
- Luggage tags help organize the load.

THULE | Go Pack Nose 8001

Bag specially shaped to fit in the front of Thule roof boxes.

- Maximizes the load capacity of the box.
- Water resistant base to protect the load.
- Shoulder strap and grips for easy and comfortable handling.
- Size (cm): 61x42x28

THULE | Go Pack 8002

Durable bag that fits perfectly in the Thule roof boxes.

- Water resistant base to protect the load.
- Shoulder strap and grips for comfortable handling.
- Size (cm): 61x33x30,5

THULE | Go Pack Mesh 8003

Durable and light-weight bag for carrying wet or damp items.

- The mesh material makes this bag perfect for carrying wet items.
- Water resistant base to protect the load.
- Shoulder strap and grips for easy and comfortable handling.
- Size (cm): 61x33x30,5

- Shoulder straps and grips for easy and comfortable handling.
- Extra thick padding to protect the ski bindings.
- Full size zipper.
- Reflecting stripes for extra security.
- Carries 1 - 2 pair of skis.
- Size (cm): 190x36

New!

Seek out the powder

Few skiing experiences can beat a long, pristine run of dry, light powder. Know where you're going? Load up the car with your mates, skis, snowboards, bags – there's room for it all – and start heading for the slopes.

The place:

Cortina, Italy

The equipment:

Thule Rapid Railing 755

Thule Atlantis 900

The ski carriers that keep the skiing adventures for the slopes and trails

Do you seek out pristine white expanses? Or do you head for the well-prepared slopes and trails? Whatever your choice of skiing adventure, Thule has the ski carriers to get your equipment to your destination safely, secure and in style. No drama, no problems. The carriers are just as easy to mount on the car roof as they are to load and unload. Ski carriers that you can trust even when icy temperatures and snowstorms threaten.

01. All Thule ski carriers are made for perfect function even on days when the temperature is far, far below zero.

02. A detail you'll like as you stand there with frozen fingers are the extra wide push buttons that open the ski carrier.

03. Tired of stretching over a dirty car roof when unloading the skis? Get a ski carrier that "helps" you unload.

Thule Xtender
So smart that it even helps
you to load up.

You won't find a smarter ski carrier than this. You simply slide out the upper section of the carrier, so that you can easily load and unload your skis without having to stretch over the car roof and risk getting your ski jacket dirty or scratching your car. Another detail that you're sure to appreciate, as you stand there with frozen fingers or thick gloves on, is the extra large buttons that open the ski carrier. A smart ski carrier for smart skiers.

The ski carrier that helps you with loading and unloading

THULE | Xtender 739

- Slides out for easy loading and unloading.
- Aerodynamic design in aluminium.
- Raised design to keep high bindings from damaging the car roof.
- Holds up to six pairs of skis or four snowboards.

THULE | Deluxe 726/727/740

Everything about this ski carrier is “deluxe”.

- Exclusive, aerodynamic design in aluminium.
- Height adjustable to keep high bindings from damaging the car roof.
- Available in three sizes for up to six pairs of skis or up to four snowboards.

THULE | Snowpro 745/746/747

A classic ski carrier with thousands of satisfied owners.

- Tried and tested by thousands of skiers around the world.
- Available in three sizes for three to six pairs of skis or two to four snowboards.

**THULE | Snowpro Uplifted 748**

30 mm raised version of the Thule Snowpro, for high bindings.

- Holds up to four pairs of skis or two snowboards.

**THULE | Snowliner 737/738**

A great value, quickly mounted and reliable ski carrier.

- Available in two sizes to carry four to six pairs of skis or two to four snowboards.

Special accessories

New!

THULE Go Pack Ski 8009

Bag ideal to carry one or two pair of skis. Equipped with shoulder straps and padded handles for easy handling. Strengthened padding to protect the ski bindings. Full size zipper. Carries 1- 2 pair of skis.

THULE One Key system

Simply replace all the lock cylinders on your load carrier and accessories (roof box, bike carrier, ski carrier etc.) and you can use the same key for all the locks! Depending on how many Thule products you have, you can choose a One Key System with 4, 6, 8 or 12 locking cylinders.

Art. no. 544, 4 cylinders, 2 keys

Art. no. 596, 6 cylinders, 2 keys

Art. no. 588, 8 cylinders, 3 keys

Art. no. 452, 12 cylinders, 4 keys

Accessories that set your car up for adventure trips and for work

Thule's load carrier system includes a wide range of carrier baskets. We have everything from stylishly designed carrier baskets for camping equipment to sturdy and robust carrier baskets for bulkier loads. And for those who, privately or professionally, need to carry loads that normally require a platform or trailer, we have some really smart solutions.

01. Thule can help you prepare your car roof for carrying everything from tents to building materials.

02. Upgrade your carrier basket with Thule's strong load net, sturdy adjustable straps or specially designed bag.

03. Do you want a carrier basket that harmonises with modern car design or are you looking for a more rugged design? Thule can offer you both kinds.

Thule Xpedition
An uncommonly stylish load carrier
with hidden depths.

Made of aluminium, it has an aerodynamic shape that harmonises with modern car design. The unusually wide load-bearing bars ensure that even a really big tent or the most extensive collection of camping equipment will be kept secure.

The carrier basket for those seeking elegant design and high capacity

THULE | Xpedition 820/821

- Modern and aerodynamic design in durable aluminium.
- Generous load capacity, with wide bars.
- Six movable eyes for straps/load net make it easy to tie down the load.
- Available in two sizes.

THULE | Xplorer 713/714/715

Smart, functional carrier basket for even the most demanding loads.

- Stable design in aluminium.
- Available in three sizes.

THULE | Xperience 828

Built for the outdoor adventurer's lifestyle with room for everything.

- Robust, built-in lightweight tubular steel.
- Adjustable load bars allow attachment of bike, ski and water sport carriers.
- Equipped with a fairing for improved aerodynamics.
- Smooth, black finish.
- With extension 828-1, the basket can be extended by 48 cm in length.

THULE | Standard 581/582

Stable, great value carrier basket for various bulky loads.

- Fold-down ends provide a flat surface for long loads.
- With adapter 584 and another standard carrier basket, capacity can be extended.
- Available in two sizes.

Special accessories

THULE Load net

Expandable, with ten movable hooks. Great accessory for Thule carrier baskets. Available in two sizes:

Art. no. 595, 80x80 cm.
Art. no. 595-1, 130x90 cm.

THULE Nomad 834

Spacious bag in soft, waterproof material, with integrated straps for securing in a carrier basket. When not in use, the bag simply folds up and packs away in its special sack. 104x86x44 cm.

Special carriers for special demands

For occasions when you need to carry planks, ladders, pipes etc. that normally require a platform or trailer, we have some really smart solutions.

THULE | Load-Stop 502/503

- Strong load-stops developed in partnership with skilled craftsmen.
- The load-stops are easy to move and adjust according to the load.

THULE | Ladder Carrier 548

- Flexible and easy-to-use loading accessory.
- Carries up to three ladders.

THULE | Roller 815

- Ideal for loading longer objects like ladders, timber, etc.
- Roller mechanism makes it easier to slide long objects onto the car roof.
- The roller is rubber-coated for protection during loading.
- Can also simplify the loading of kayaks or surfboards.

THULE | Strap Winch 552

- Strap and load-stop all in one.
- Including two winches and two 190 cm straps.

A system designed for professionals

For really tough demands, Thule has designed a special load carrying system – Thule Professional, designed for work vans and professional users. Read more about Thule Professional at www.thuleprofessional.com

Special accessories

THULE Straps

Sturdy, adjustable straps for safe transport with a tension strength of 300 kg.

- Art. no. 521, 1x275 cm.
- Art. no. 524, 2x275 cm.
- Art. no. 522, 1x400 cm.
- Art. no. 523, 2x400 cm.
- Art. no. 551, 2x600 cm.

- The platform in Thule Professional is a rugged Heavy-Duty Bar designed for high load capacity.
- The ingenious Conduit Box for loading organizing and transporting pipes is one of many innovative accessories.
- Thule Ladder Tilt is another transport solution for professionals making the work easier and safer.

There's a Thule load carrier for every car make and model

When choosing a transport solution, always start with the load carrier. And if you want a guarantee, just look for the Thule trademark. Thule is the leading global developer of load carriers for cars. There is no better solution. Once you've mounted the load carrier on your car, simply add the accessories you need to transport your gear elegantly, safely and securely.

Load carrier foot for cars with normal roofs

Load carrier foot for cars with roof rails

Load carrier foot for cars with pre-installed fixpoints

Load carrier foot for cars with integrated roof rails

T-track – the ingenious feature that gives Thule's load carrier system unique loading properties

All Thule's aerobars are equipped with a T-track – an ingenious feature that has clear benefits:

- When you change load accessory, e.g. from bike carrier to ski carrier, simply slide in and attach the new accessory.
- You can use the whole length of the aerobar, even the space above the load carrier foot, to make space for several accessories on the car roof.

01. Choose the load accessory you need.
02. Fit Thule's aerobars.
03. Slide in the accessory, which fits perfectly in the T-track.
04. The full length of the aerobar can be used.

LOAD CARRIER FEET

Load Carrier feet are available as 4-packs and load bars as 2-packs.

Features

01. Power-Grip

Unique, patented quick mounting system. The grip claws are tightened around the load bar as the knobs inside the box are turned. Self-centering over the load bar for top security and CityCrash tested for a maximum load of 75 kg. Fits load carrier bars up to 80 mm width. Standard on Thule Spirit and Atlantis.

02. Fast-Grip

Patented Fast-Grip solution for easy fixing of the box. Attach the mounting hardware inside the box, then tighten the grip claws around the load carrier bars by turning the knobs. Fits carrier bars up to as much as 90 mm width. Standard on Thule Pacific.

03. Quick-Snap

Patented quick mounting system for fast, easy and secure mounting. For load bar up to 80 mm width. Standard on Thule X1.

04. Easy-Snap

Patented quick mounting system for quick and easy fitting. For load bar up to 80 mm width. Standard on Thule Ranger.

05. Thule diffuser technology

Longitudinal air channels and a spoiler on the box base minimize air resistance, wind noise and vibrations for best possible driving performance. Standard on Thule Spirit.

06. Dual-Side

Allows you to open the box from both sides, for easy mounting, loading and unloading. Standard on Thule Spirit, Atlantis and X1.

07. Dual-Force

A patented spring system for easy opening and closing of the box. Standard on all Thule boxes.

08. Central locking

Patented safety locking system – the key can only be removed if all locking points are closed. Standard on all Thule boxes with side opening. A new grip-friendly key for better handling is standard on Thule Spirit and Atlantis.

Features

01. Thule Hydroglide is so easy to load that one person can do it

As the rear supports are large and felted, you can simply slide the kayak up onto the car roof.

02. Rubber protection for buckle

Protects your surfboard or kayak while facilitating the loading process.

03. Thule Multi Purpose Carrier takes care of everything from oars to masts

All the extra equipment you need out on the water, such as oars, paddles, masts, etc. sits securely on the car roof in the Thule Multi Purpose Carrier.

¹ Applies when using Thule's original carrier. Please consult your Thule dealer before using another manufacturer's carrier.

Features

01. Extendable for easier loading and unloading

Thule Xtender 739 with patented slide function that makes it easy to load skis without having to stretch over the car roof.

02. Extra wide push button

Opening mechanism that you can manage even while wearing thick ski gloves. A detail that is featured on most ski carriers.

03. Room for high bindings

Thule Deluxe is a ski carrier that can be raised by up to 25 mm. Thule Snowpro Uplifted has a fixed extra height of 30 mm, for transporting skis with higher bindings. Avoids damage to the car roof.

Ultimate safety

Before a Thule product is brought to the market, it goes through rigorous testing. It is exposed to everything from icy cold to desert heat and long-term UV radiation. Then we move onto tensile tests, shock tests, road test, endurance tests, aerodynamic tests and crash tests. However, test benches and test laboratories are just the beginning. All the features that make it simple and convenient for you to carry your equipment are tested exhaustively out in the real world. Our long-established approach to safety is deeply rooted in the soul of the company. And the approach is based on many years of working with the world's automotive industry. Safety is a common theme running through the entire product range, and you can therefore rest assured that your Thule product will handle tough treatment year after year, without losing any of its performance.

Tested in laboratories.

Toughened up in a hard and demanding world.

Every product in the Thule range has been developed and manufactured according to exact specifications and is rigorously tested to ensure that it meets the safety and reliability requirements of industry-specific ISO and DIN standards. This is essentially the test programme that every Thule product has to undergo before it is launched onto the market.

The tough journey from concept to finished product

The tests start as soon as the product idea is born.

A computer simulation of the product's characteristics is run, based on the specifications provided by the product developers and the testing engineers.

A prototype is produced from a plan that comprises around 20 different points. The first tests are carried out in a laboratory environment.

The prototype is then tested in the real world with test drives, evasive manoeuvre tests, braking tests, high-speed tests, and so on.

Evaluations are carried out, any adjustments made and tools manufactured for series production. Materials, surface finishes, etc. are chosen.

The Reliability

“ Once a product has successfully completed our comprehensive and detailed test plan and is ready for launch, we test it again. ”

The result: Reliability in every respect.

The first ten units produced are taken out for the same comprehensive testing as the prototype.

The user-friendliness of the product and the clarity of the fitting instruction is evaluated through practical user tests.

Once all the tests have been completed and any adjustments made, the product is sent to Germany for GS-approval through safety testing that is just as stringent as Thule's own.

Development of the product is complete. But one test remains. To make sure the product is properly protected in its packaging, it is sent on a round trip by air, truck or other means of transport.

Only now is the product ready to be launched onto the market! 

Go with the world leader within Sports Utility Transportation

CAR RACK SYSTEM

The ultimate Car Rack System to bring your gear and add space to your car.

TOWBARS

Towbars with perfect fit for every car make and model imaginable.

TRAILERS

Trailers for both leisure and professional needs.

RV ACCESSORIES

Accessories to help you get more out of your holiday.

SNOW CHAINS

Snow chains that get you there on winter roads.

Wherever you want to go

Whether you're off to the other side of the world or just going around the corner, seeking the best biking trails or the finest riding terrain, Thule has everything you need to transport your equipment – safely, easily and in style.

Whatever you're driving

Whatever car you drive, Thule has a transport solution with perfect fit to help you bring the equipment you need. We have the towbar to hitch up the caravan or the trailer,

as well as the snow chains to get you safely from A to B. If you want to get the most out of your RV vacation, we have the accessories.

Whatever you want to bring along

For canoes, kayaks, bikes, skis, horses, cars, snow scooters, camping equipment, trailers, caravans, ladders and other gear, Thule has the perfect solution.

THULE®

SWEDEN

CARGO MANAGEMENT

The smartest storage and organization solutions for your car.

PROFESSIONAL

Fully integrated load carrier systems for work vans and professional users.

ORIGINAL EQUIPMENT

If your car has a factory mounted roof rail it has probably been made by us.

It's easier

You can always identify a Thule product by its perfect fit, simple mounting and ease of loading. It is as easy to fit our products to the car as it is to load and unload your gear from them.

It's safer

Before a product can carry one of Thule's brands, it has to go through tough and stringent tests in laboratories and the real world. As a result, our products meet and exceed international safety requirements long before they become the market standard.

It's more stylish

Design is just as important as safety and function. Our products are made to complete and enhance the lines of your vehicle and the design of your leisure gear.

Discover more Thule products for active people at www.thule.com

The website allows you to examine Thule's load carrier systems in detail and quickly find out exactly which carrier fits your car. If you want to know where your nearest dealer is, this is the easiest place to find out. At thule.com we also present a wide range of other transport solutions from Thule – for active people and professionals wanting to transport their equipment by vehicles. Safely, easily and in style.
