**DAIKIN
CLUTCH**

OE Replacement Clutch Kit, Cover, Disc, Flywheel, Hydraulic & Clutch Fork Catalog for USA

The Future is **NOW!**

***Durability by
advanced engineering***

FIRST THINGS FIRST

**Establish the
reason for a
replacement clutch
being required.**

If this is not due to normal usage, then the root cause of the condition must be established and corrected. These causes may include a slipping clutch, oil contamination, misalignment, faulty or incorrectly adjusted clutch release mechanism, faulty engine or gearbox mountings etc...

TERMS AND CONDITIONS OF SALE

1. All orders accepted by, and goods/products supplied by, EXEDY GLOBALPARTS CORPORATION, hereafter referred to as the Company, are subject to the following Terms and Conditions of Sale. Any exceptions and/or variations must be specifically agreed to in writing by both parties.
- 2a. Manufacturers' Names, Part Numbers, Symbols or any other references appearing in the Company's listing and/or on the Company Packaging, are used for reference purposes only and in no way indicate the goods/products are made by, for, and/or guaranteed by such manufacturers.
- 2b. Distributors claiming short delivery or incorrect discount must notify the Company within seven (7) days of delivery or invoice date.
- 2c. Prices are subject to change without notice. The price payable for goods/products shall be the price in force at the time of delivery.
- 2d. No partnership, joint venture, or other such association will be deemed created by opening an account with the Company. Neither party is the agent of the other, and neither party shall represent itself as an agent, officer or principal of the other for any purpose, including, without limitation, entering into any commitment, agreement or other obligation. Purchasing product from the Company does not in any way imply that the customer is an appointed sole distributor or an exclusive distributor of the Company's products.
3. All data, applications and/or interchanges, contained in the Company's listing and catalog/publications electronic lookup systems have been compiled as carefully as possible from reliable and official sources of information available at the time of publishing and appears as a general guide only. The information contained is correct to the best of the Company's knowledge and belief. However, the Company cannot, and will not, assume any responsibility for possible errors contained in the publications, which may lead to wrong quotations given to customers. Correct selection of goods/products is the responsibility of the purchaser.
- 4a. Standard OEM replacement clutch kits are guaranteed for a period of twelve (12) months or 20,000 miles, whichever ever occurs first.
- 4b. For warranty information on sports and performance clutch products, please refer to EXEDY sports clutch catalog.
- 4c. All goods/products supplied by the Company are warranted against faulty material and/or workmanship. Warranty does not apply if maltreatment, damage caused by collision or incorrect fitting exists. Warranty does not apply when the goods/products sold are fitted to a vehicle used for speed trials, racing, time trials, commercial and off road vehicles unless specified for that use in the Company's publications.
- 4d. When the company's clutch covers, clutch discs, or bearings are repackaged with another manufacturer's parts all warranties are void.
- 4e. Clutch kits and/or clutch components fitted to modified vehicle and/or clutch components that have been modified to Heavy Duty Specifications and/or any other specification/non-original conversions; Clutch disc and/or clutch disc friction material that has been altered are not covered by any warranty issued by the company.
- 4f. Claims will be rejected where clutch kits and/or clutch components have been fitted to incorrect or unlisted applications. Flywheel must be resurfaced/machined before new clutch kit is fitted otherwise warranty will be void.

***WARNING:** Do not use EXEDY/Daikin clutches in any situation where engine RPM's may exceed manufacturer's specifications. Pressure plate can explode unexpectedly causing serious injury or death to vehicle occupants and bystanders. Clutch cover and bell housing will not protect against exploding pressure plate. Refer to the Application Catalog for correct fitting. For sports and performance applications, please refer to the EXEDY Sports and Performance Publication.

CLAIM/WARRANTY PROCEDURES

- 5a. Any goods/product deemed by the customer to be faulty must be accompanied with a completed EXEDY Globalparts Corporation Warranty Claim Form, then the merchandise should be sent to us freight prepaid or given to a company representative. A RGA may be obtained by phoning our Sales office (an RGA will be given at our discretion). Additional claim forms may be obtained by phoning a customer service representative.
- 5b. No Claim Credit will be issued until the said goods/products have been tested and deemed faulty by the Company.
- 5c. The Company will not pay any claim for goods/products repaired by the Customer and/or claims sight unseen.
- 5d. It is the responsibility of the Company's customer to advise their customer on all aspects of this warranty and/or warranty procedures on any claim.

TERMS AND CONDITIONS OF SALE

(Continued)

RETURN FOR CREDIT PROCEDURES / CREDIT TERMS / AND PAYMENT PROCEDURES

Goods/Product may be returned for credit within fourteen (14) days of invoice date under the following conditions:

- 6a. Goods/Products and packaging must be in resalable condition.
- 6b. Freight must be prepaid.
- 6c. All returns must be pre-approved by EGP, any returns that arrive without pre-approval will be returned to sender. Please contact customer service for an RGA number.
- 6d. A reason for the return of goods/products must be indicated at the time of return and be approved by the Company in advance. (Refer to 5a)
- 6e. Stock Adjustments/Returns: Will be at the discretion of the Company. Returns will be subject to 10% handling charge, all returned goods must be in a resalable condition. Freight to be paid by the customer on such returns.
- 6f. All special ordered goods/products will not be accepted back for credit.
- 6g. Returns will not be accepted after ninety (90) days unless by prior arrangement in writing.

* Payment terms are strictly 30 days from date of statement for repackager accounts. All other customer account terms are 59 days from date of statement. No other terms will apply unless otherwise agreed to, in writing, by both parties. We reserve the right to withhold delivery of further goods/products until all outstanding amounts are paid. Short payments are not acceptable. Complaints, disputes or claims with respect to one invoice and/or return may not be offset against payments due on another invoice Credits/claims. Unapproved and/or awaiting approval must not be deducted from payments, if so it will result in your account being brought to Credit Hold/Stop Status/Stop Supply of product. The passing of the property goods and parts dispatched from our warehouse is the responsibility of the customer. The goods delivered from the Company's warehouse shall remain the property of the company until payment is made in full by the customer. Any and all returned checks will be assessed a \$45.00 service charge.

- 7. Repeated Credit Hold/Stop Status/Stop Supply of trading accounts could result in complete closure of the account. All goods shipped and received by the customer will remain the property of the company till payment for the goods are received by the company and paid for in full.

FREIGHT/INSURANCE

- 8a. Kit orders over \$1,000 (US Dollars) will be shipped freight prepaid within the Continental United States. Component orders over \$7,500 (US Dollars) will be shipped freight prepaid within the Continental United States. NOTE: Sports and performance kits and products are excluded. (No free shipping on sports products) Please refer to special conditions if negotiated below.
- 8b. There is no minimum order to regular clutch kit and sports kit customers. Purchase price is jobber less your negotiated discount.
- 8c. Insurance is not included in the freight charge. Insurance, if required, is the responsibility of the purchaser and must be arranged prior to dispatch of goods/product.
- 8d. Customers wishing to request another freight company and/or method, other than the one used by the Company, must make arrangements prior to dispatch of goods/product. All costs incurred and insurance, if required, are the responsibility of the purchaser.
- 8e. Any claims for damaged goods/product or shortages in transit must be filed with the carrier at the time of delivery. The prices set out or referred to in the Company's Price List are recommended prices only. There is no obligation to comply with these recommendations. Please draw our attention to any errors, omissions and anomalies. It is the responsibility of the Company's Customer to advise their staff and customers of the above terms and conditions of sales. Prices are subject to change without notice.

SPECIAL CONDITIONS

Special conditions can be negotiated. Conditions must be agreed to by both parties and printed below this line.

7.3	445	V8	1993-94	Diesel with Indirect Fuel Injection, Non-Turbo and Aftermarket Turbo, LUK type solid flywheel replacement, kit does not contain flywheel.	—	07131
7.3	445	V8	1993-94	Diesel with Indirect Fuel Injection, Non-Turbo and Aftermarket Turbo, Stripped Chassis LUK type solid flywheel replacement, kit does not contain flywheel.	—	07131
7.3	445	V8	1993-94	Diesel with Indirect Fuel Injection, Non-Turbo and Aftermarket Turbo, Stripped Chassis, 8th Digit of VIN K or M. LUK type solid flywheel replacement, kit contains solid flywheel and mounting bolts. Must be used as matched set.	—	07131A
7.3	445	V8	1993-94	Diesel with Indirect Fuel Injection, Non-Turbo and Factory Turbo, Stripped Chassis, 8th Digit of VIN K. LUK type solid flywheel replacement, kit contains solid flywheel and mounting bolts. Must be used as matched set.	—	07131B
7.3	445	V8	1994	5 Spd with Indirect Fuel Injection, VIN F. LUK Type Solid Flywheel not Included. Use this kit when solid flywheel is present.	—	KFM18
7.3	445	V8	1994	With Direct Fuel Injection, Factory Turbo, with DMF. Heavy Duty 12" option. Valeo type DMF included.	—	07100B
7.3	445	V8	1994	With Direct Fuel Injection, Non-Turbo and Aftermarket Turbo, with DMF. Heavy Duty 12" option with rigid disc. Valeo type DMF included.	—	07100A
7.3	445	V8	1994	With Direct Fuel Injection, Non-Turbo and Aftermarket Turbo, with DMF. Heavy Duty 12" option. Valeo type DMF not included.	—	07100
7.3	445	V8	1994	With Direct Fuel Injection, Non-Turbo and Aftermarket Turbo, with DMF. Valeo type DMF included.	—	07076A
7.3	445	V8	1994	With Direct Fuel Injection, Non-Turbo and Aftermarket Turbo, with DMF. Valeo type DMF not included.	—	07076
7.3	445	V8	1994	With Direct Fuel Injection, Non-Turbo and Aftermarket Turbo, with DMF. Valeo type DMF not included. With Stripped chassis.	—	07076
7.3	445	V8	1994	With Direct Fuel Injection, Non-Turbo and Aftermarket Turbo, 8th Digit of VIN K or M. LUK type solid flywheel replacement kit contains solid flywheel and mounting bolts. Must be used as matched set.	—	07131A
7.3	445	V8	1994	With Direct Fuel Injection, Non-Turbo and Aftermarket Turbo, 8th Digit of VIN K or M. LUK type solid flywheel replacement, kit contains solid flywheel and mounting bolts. Must be used as matched set.	—	07131A
7.3	445	V8	1994	With Direct Fuel Injection, Non-Turbo and Factory Turbo, 8th Digit of VIN K. LUK type solid flywheel replacement kit contains solid flywheel and mounting bolts. Must be used as matched set.	—	07131B

 17" RING GEAR - 137 TEETH

Clutch Brakes

Part #	Description
DTL175	1-3/4" TORQUE LIMITING
DTL200	2" TORQUE LIMITING
DBK175	1PC 1-3/4" BRAKE
DBK200	1PC 2" BRAKE
DSCB175	1-3/4 HINGED BRAKE
DSCB200	2" HINGED BRAKE

Clutch Brake Washer

Part #	Description
DAC1826	2" (0.125 Thick)
DAC1827	2" (0.187 Thick)

2**Dr**

Part #	Description
DAC1829	274C-6 SET OF 6 (12 Allen head Screws)
DAC1828	274C-28
	21AC815

Pilot Bearings

Part #	Description
PB6203	1.574" x .668"
PB6204	1.850" x .786"
PB6205	2.046" x .983"
PB6206	2.440" x 1.180"
PB6304	2.046" x .786"
PB6305	2.440" x .985"
PB6306	2.833" x 1.179"
PB6306 (w/ Snap ring)	2.833" x 1.179"
PB6306SRG (w/ grove only)	2.833" x 1.179"

Clutch Alignment Tools

Part #	Description
PT034	1 1/4" SPLINE x 1" PILOT
PT055	1 3/8" SPLINE x 1" PILOT
PT054	1 1/2" SPLINE x 1" PILOT
PT150A	1 1/2" SPLINE x 3/4" PILOT
PT150T	1 1/2" SPLINE x 1.18" PILOT
PT175AEX	1 3/4" SPLINE x 1" PILOT
PT175EX	1 3/4" SPLINE x 1.18" PILOT
PT200EX	2" SPLINE x 1.18" PILOT

HFW01

CUMMINS: NT855, N14

HOUSING: SAE #2
STARTER: DRIVER SIDE 9 O'CLOCK
FLYWHEEL: SAE #2 * 17" RING GEAR
DRILLED FOR BOTH STRAIGHT OR 12° TILT
APPLICATION 3/4" MOTOR MOUNT HOLES

HFW02

CUMMINS: NT855, N14

HOUSING: SAE #1
STARTER: DRIVER SIDE 9 O'CLOCK
FLYWHEEL: SAE #2 * 17" RING GEAR

HFW03

CUMMINS: NT855, N14

HOUSING: SAE #1
STARTER: DRIVER SIDE 9 O'CLOCK
FLYWHEEL: SAE #2 * 17" RING GEAR

DRILLED FOR BOTH STRAIGHT OR 8° TILT APP

HFW04

CUMMINS: NT855, N14

HOUSING: SAE #1
STARTER: PASSENGER SIDE 2 O'CLOCK
FLYWHEEL: SAE #1 * 20" RING GEAR

HFW05**CUMMINS: L10, M11**

HOUSING: SAE #1

STARTER: DRIVER SIDE 9 O'CLOCK

FLYWHEEL: SAE #2 * 17" RING GEAR

HRW06**CUMMINS: SIGNATURE 600**

HOUSING: SAE #1

STARTER: DRIVER SIDE 9 O'CLOCK

FLYWHEEL: SAE #2 * 17" RING GEAR

HFW07**CATERPILLER: 3126, 3116**

HOUSING: SAE #2

STARTER: DRIVER SIDE 9 O'CLOCK

FLYWHEEL: SAE #2 * 17" RING GEAR

SECTION 9

INSTALLATION INSTRUCTIONS

How to get it right the first time... FITTING INSTRUCTIONS: INSTALLING YOUR NEW DAIKIN CLUTCH.

Failure to observe these instructions when fitting your Daikin Clutch will void any warranty.

1. *Getting it right the first time. It is vital to diagnose the cause of clutch malfunction before clutch replacement, i.e. check hydraulic system - bearing free travel - clutch cable, oil leaks and check for any signs of red dust when old clutch is being removed. Any or all of these problems must be corrected before installing a new clutch.*
2. Ensure clutch supplied is correct for the application. If you're unsure, consult your Daikin Clutch Catalogue or your supplier, as fitting a clutch to the wrong application will void the warranty.
3. Flywheel must be machined as shown below (Fig 2.) or warranty will be void and check spigot bearing or the pilot bush and replace if necessary. Please note pilot bush noises are more apparent when the engine and transmission systems are cold (i.e. in the mornings).
4. Before fitting, check the clutch for any shipping damage. Next clean the gear box main drive shaft splines, then check that clutch disc slides freely on the shaft. Lightly grease the shaft splines with high melting point grease. Always ensure bell housing is degreased and is free of any dust and that fibres from the worn clutch are removed. If the clutch is a large size pull type clutch check the ID of the bearing head for correct spline size before installation. Lack of lubrication/dry splines will cause failure to disengage gears and also cause clutch drag.
5. Check clutch release fork for cracks, check the clutch cable for stretch signs and check the release bearing guide tube for any wear. Always lightly grease the outside diameter of the tube. This will allow smooth sliding of the bearing carrier. Always check bearing on clutch release fork after installing the bearing on it. Move the fork forwards and backwards i.e. in both directions, to ensure bearing is secure and does not fall on any part (clutch fork or bell housing) before refitting gear box.
6. Place the clutch cover pressure plate assembly over the clutch disc, after checking that the disc is the right way around and the hub section of the disc does not fall on the casting of the clutch cover assembly or the flywheel. A suitable clutch aligning tool will ensure correct alignment, assist in ease of installation and avoid spline damage. (Burr's on splines are a major cause of difficult gear disengagement). Ensure pressure plate dowels are aligned to the cover. Tighten bolts in a diagonal pattern and never use air tools to install a clutch cover assembly. Torquing down bolts in an uneven pattern in some instances could cause the lever strut to dislodge itself from the pressure plate casting.
7. When the pressure plate has been torqued down securely to the flywheel, ensure that the diaphragm tips (in the case of a lever type cover assembly, the release lever tips) are in a parallel position (see Fig 3) and do not go over center of the parallel position.
8. Refit gear box, taking care not to bend the clutch disc. Never hang the gear box off the clutch disc or use any force to align gear box shaft.
9. Check all bell housing dowels are in correct position and tighten bell housing bolts. Ensure there is no dirt or foreign material between the mating surfaces of the engine and the bell housing.
10. Perform any clutch adjustments to vehicle manufacturer's specifications and always reset the clutch master cylinder push rod to obtain comfortable pedal release position (clutch taking up as close as possible to the floor prevents clutch shudder and in most cases preferred by vehicle drivers). Keep in mind that the diaphragm tip position has changed with the installation of the new clutch.
11. Always check the clutch cable if you are unable to obtain disengagement when a new clutch is fitted. Start off your checking process by replacing the cable. If it is a hydraulic clutch start by checking the clutch master cylinder and the clutch slave cylinder, ensuring there is no air in the system. This is essential to obtain maximum travel for disengagement.
12. Road test vehicle and never abuse a newly fitted clutch. Allow 750 mi break in and always adjust free travel on your new clutch at 750 mi and 1500 mi. Thereafter, adjust at every 7500mi.

WARNING: Do not use DAIKIN clutches in any situation where engine RPM's may exceed manufacturer's specifications - a pressure plate could explode unexpectedly causing serious injury or death to vehicle occupants and bystanders. Clutch cover and bell housing will not protect against exploding pressure plates. Refer to the Application Catalogue for correct fit.

Good flat machined surface

NEW TECHNOLOGY DESIGN CLUTCH

STUDY BEFORE DISASSEMBLY

STUDY BEFORE INSTALLATION

INSTALLATION AND SNAP-IN PROCESS

Install Bearing on to clutch fork, install transmission (G/Box) then the release fork must be pulled in the direction reverse to the release firmly. The bearing is then snapped in.

DISASSEMBLY

Move Bellhousing back approximately 30 to 40mm, insert screwdriver and twist as in figure A. Bearing will then snap out from clip mechanism.

BED IN PROCEDURE DRIVER EDUCATION TO BE FOLLOWED

IMPORTANT NOTICE

AFTER INSTALLATION OF THIS CLUTCH PLEASE NOTE DUE TO HIGH PERFORMANCE T5000 FRICTION MATERIAL BEING USED IN YOUR DISC YOU MAY ENCOUNTER SLIGHT CLUTCH SHUDDER AS WITH ANY CERAMETALLIC CLUTCH SYSTEM THERE WILL BE SOME COMPROMISE OF START UP DRIVEABILITY AS COMPARED TO A STOCK CLUTCH (CHATTER ON LIGHT THROTTLE, AT LOW RPM START UPS.)

THESE CHARACTERISTICS ARE GENERALLY ACCEPTABLE IN MODIFIED PERFORMANCE CARS. DRIVERS WHO CHOOSE CERAMETALLIC CLUTCHES MUST BE AWARE OF THIS.

NOTES:

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There is no handwriting or other markings on the paper.
