ContiSys OBD

Next-generation
vehicle diagnostics

The new multi-brand scanner from VDO

Tune up your service performance

For efficient workshop processes, test devices must allow fast EOBD diagnostics for a wide range of vehicle makes.

ContiSys OBD delivers this and much more, supporting numerous functions that you need as a professional technician on a daily basis. With ContiSys OBD, you can test systems such as ABS/ESP, SRS (airbags and pretensioners), electric parking brakes (EPB) and air conditioning systems faster and more easily than ever before. The range of functions also includes service interval indicator resetting and calibration of the steering angle sensor. This represents a valuable upgrade to the services you offer.

ContiSys OBD Scanner

Clear benefits

With its wide range of functions and ease of use, the versatile ContiSys OBD scanner is the ideal service tool for many workshop applications:

- Downloading data from electronic control units for a fast initial overview of the vehicle
- Engine diagnostics – in addition to the EOBD fault codes ContiSys OBD contains over 20,000 manufacturer-specific faults
- Clearing airbags and pretensioners faults – perfect for body shops
- Support for electric parking brakes, ABS/ESP and MB SBC systems – ideal for brake service operators
- Resetting service systems (incl. BMW CBS, Mercedes Assist Plus and VAG CAN)
- Resetting oil change interval indicators
- Or just as a practical instrument for fast diagnostic results

Multifunctional and always up-to-date

The optional ContiSys Update Plus service ensures that your diagnostics device is always up-to-date.

Product

ContiSys OBD – Scan Tool Kit
(including Update Cable, multiplex cable and EOBD cable)

VDO prod. code A2C59512059 ATE prod. code 03.9301-2000.4

ContiSys OBD product accessories

ContiSys OBD – BMW OBD cable

VDO prod. code A2C59512067 ATE prod. code 03.9301-2015.1

ContiSys OBD – CAN cable – e.g. BMW, Opel – ABS, service
