ContiSys OBD

Accessory: ContiSys OBD iMux cable

Dear Sir or Madam,

Within „Product Information no. 14“ (New Product Information – ContiSys OBD Professional) we have already informed about the new iMux cable which is part of the default delivery of ContiSys OBD Professional.

This cable is now also available as an accessory for the standard ContiSys OBD Kit.

The iMux cable supports all functionalities of the EOBD and Multiplex cable as well as the two accessories, Fast CAN cable and Fiat/Alfa/Lancia CAN cable.

VDO article number: A2C59512985

Ate article number: 03.9301-2021.1 / 782021

Please note: The iMux cable requires **software version 3.0.0** or higher on the ContiSys OBD handset.
