

FUEL SYSTEM

## LPG CAPS AND ADAPTORS

### THE LPG ACCESSORY YOU NEED

More and more people today are choosing LPG powered cars. Not only is LPG better for the environment, it is also around 50% cheaper than petrol or diesel. As an expert in this field, Gates knows what you need to hit the road safely with an autogas powered car and now offers you the perfect range of LPG accessories.

### YOUR PREFERRED ONE-STOP-SHOP SUPPLIER

Gates offers a broad product programme for fuel systems. With the all-new LPG caps and adaptors, Gates now has everything you need to guarantee a fully reliable fuel system. And as you know, Gates always complements its products with excellent after-sales support.

# LPG CAPS AND ADAPTORS

## CHOOSE A PERFECT FIT FROM THE WIDE RANGE AVAILABLE

Nowadays, LPG gas is widely available at petrol stations. However, since the connections are not universal, you might need more than one adaptor to buy LPG gas in different countries. Gates offers various country-specific adaptors which ensure you are well-prepared when hitting the road.

### LPG ADAPTORS:

- Serve as a connection between the filler and the car.
- Easy to use.
- Various country-specific LPG adaptors available.
- Brass construction guarantees an excellent performance in the harsh fuel environment.

Gates offers you a complete programme for fuel systems. To ensure that your LPG tank is securely closed off, an LPG cap is required. We meet the market needs and offer you replacement parts when your cap is broken or lost.

### LPG CAPS:

- Prevent dirt and water infiltrating the filter neck.
- Both locking and non-locking LPG caps available.
- Plastic construction allows the tank to breathe.

PN		Description	Blister pack				Additional information
			length mm	width mm	depth mm		
7410-40500	LC40500	LC40500 NON LOCKING LPG CAP	114	173	70		ACME and IT/FR filler cap fix with 1/4 turn
