

REACH Regulation (EC) 1907/2006

Certification of Brembo painted brake discs

As a manufacturer of brake systems and components operating in the Original Equipment and Aftermarket sectors, Brembo S.p.A. hereby certifies that its products are made to the highest engineering and quality standards currently adopted in the automotive industry; moreover, in keeping with the company's code of ethics, Brembo S.p.A. is committed permanently and unwaveringly to a policy of continual improvement in the areas of health and safety, working conditions and care for the environment.

European Regulation 1907/2006 and its subsequent amendments, known as R.E.A.C.H. — concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals — and in particular Annex XIV, indicates a list of substances referred to as Substances of Very High Concern (SVHC), considered particularly hazardous for human health or the environment, and imposes restrictions on their use.

Brembo S.p.A. declares and certifies that all products manufactured by the company, including painted brake discs, are in conformity with the provisions of the REACH regulation and contain no SVHC substances as defined therein.
